<p>7. LENGTH OF OBSERVATION 3-6 seconds</p>	<p>8. NUMBER OF OBJECTS One</p>	<p>9. COURSE Down & up.</p>	
<p>10. BRIEF SUMMARY OF SIGHTING Report received by phone and information recorded by SBO. Observation at dusk through car windshield while car moving 40 mph. Object appearing as a light came out of the clouds and went back up into them. White, circular with tail as it descended. No tail going back up. Described as fireworks or a comet, bigger than stars. Object to the Northwest as the car was going West. The elevation was given as 30-40 degrees. Object had speed of jet a/c and believed to be about 10 miles from the observer.</p>		<p>11. COMMENTS No mention of the manner in which the object changed directions. Also no mention that the speed was constant in the descending and rising portions of the observation. The star Arcturus was just rising at an azimuth of 330 degrees sighting has all of the characteristics of an observation of an astronomical refraction with the exception of the elevation. It is possible that the witness observed the object at a lower altitude, however this assumption cannot be made and the case is listed as insufficient data.</p>	

U.S. AIR FORCE TECHNICAL INFORMATION SHEET
(SUMMARY DATA)

In order that your information may be filed and coded as accurately as possible, please use the following space to write out a short description of the event that you observed. You may repeat information that you have already given in the questionnaire, and add any further comments, statements, or sketches that you believe are important. Try to present the details of the observation in the order in which they occurred. Additional pages of the same size paper may be attached if they are needed.

DATE _____

He saw the object at 1803 near Springfield
Pine and Sharon Ave north of the
city. He emphasized the fact that
the object seemed to come out of the
clouds, (no change in brilliance) ^{and} then
rise again in a near vertical
direction. The object was observed
between 3 to 5 seconds.

REPLY TO
ATTN OF:

5D 24-21

2 December 1960

SUBJECT: (U) Unidentified Flying Object (UFO)
Cincinnati, Ohio, 16 November 1960,
Sighted by [REDACTED]

TO: AFIC (AFICIN-4E2x)

1. The following information reported by Mr. [REDACTED] on 21 November 1960, to the Cincinnati, Ohio Detachment Office of the 5th District Office of Special Investigations, Wright-Patterson AFB, Ohio, concerning (UFO) sighting on 16 November 1960, is furnished for your information and action deemed appropriate.

a. Description of the Object:

- (1) Shape - circular
- (2) Size - approximately 5/16" (size of pea) held at length of arm.
- (3) Color - main body white - blue with white center.
- (4) Number - one
- (5) Formation - not applicable
- (6) No discernible features or details.
- (7) Long tail, approximately the size of object with color from yellow to red orange.
- (8) No sound heard.
- (9) Observer stated object looked like a military flare or a meteor, celestial trajectory.

b. Description of Course of Object:

- (1) Brightness of object first called the attention of observer to the object.
- (2) Angle or elevation and azimuth of object when first observed. Approximately 87° elevation measured from North. (Almost directly overhead).

FOR OFFICIAL USE ONLY

(3) Angle or elevation and azimuth of object upon disappearance. Approximately 15° above horizon in West.

(4) Description of flight path and maneuvers of object. Traveled in straight line from East to West.

(5) How did object disappear - Instantaneously to the West.

(6) How long was object visible - Approximately 4 to 7 seconds.

c. Manner of Observation:

(1) Ground - Visual

(2) No optical aids used.

(3) Sighting made from auto.

d. Time and Date of Sighting:

(1) 2021 hours - 16 November 1960.

(2) Light conditions - Night.

e. Location of Observer:

(1) Traveling West on Fairmont Avenue, Cincinnati, Ohio, approximately 2 miles N.W. of downtown Cincinnati, Ohio.

f. Identifying Information on Observer:

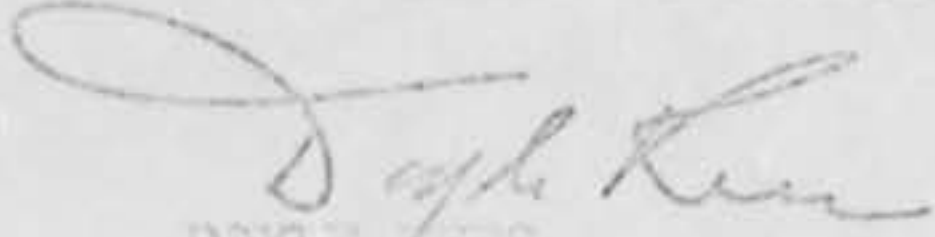

Name: [REDACTED]

Home Address & Phone: [REDACTED], Cincinnati, Ohio,
[REDACTED]

Business Address & Phone: [REDACTED], Cincinnati,
Ohio, [REDACTED]

Business: [REDACTED] Co., Design Engineer.

g. Observer's account of weather conditions - clear, unlimited ceiling and visibility, with no cloud cover.

New 'What's It?' Crosses Our Sky

Greater Cincinnati was treated to another colorful, but brief, aerial exhibition last night.

A bluish sphere trailed by a red tail soared across the sky at about 8:15 p. m., creating a stir among residents in Mariemont, Mt. Carmel, Mt. Healthy, Milford, Fairmount and Cumminsville.

Callers told The Enquirer the display was visible only for seconds, but was of intense brilliance.

A representative of the Cincinnati Unidentified Flying Objects Research Group

said last night's occurrence might fall into this category.

Leonard H. Stringfield, 4412 Grove Ave., Mariemont, is president of the local UFO group. He did not see the sphere, but his wife, Dell, did observe it. Basing his estimation on her description, he said: "It was definitely an object."

Stringfield said he has received reports of similar sightings from residents of Greater Cincinnati for the last four nights.

Last night's event was the third to create interest here in five days. The northern lights were visible Saturday night, while on Monday night, an apparent meteor flashed across the heavens and was visible in four states.

REPLY TO
ATTN OF: AFCEC-1K2

SUBJECT: Extract from Duty Officers' Report

15 NOV 1950

TO: AFCEC-432 (WJ Friend)

The following, extracted from Capt Mackay's report dated 14 November 50, is quoted for your information.

1715 Capt Steele at Military Flight Services called and reported a UFO sighting by a P-47. ATC relayed the report of the pilot. He reported seeing an air explosion near Sylvania, Indiana. Another aircraft in the area (C-47) was queried by ATC and claimed seeing a shooting star at about the same time.

Asked Capt Steele to get information as to the base of the P-47 and tail number if possible. He called back at 1940 and said it was a Lockheed to Lockheed Flight with "10" as a call sign. Had no further information other than a reported jet crash near Ft Knox and another unconfirmed crash in the tri-state area.

1730 Received a call from Stamford, Conn. by [redacted] on a reported UFO. Very cooperative however questionable because too shy and embarrassed to handle over the phone. Got as much information as possible before he appeared to tire and lapsed from the questions. (See attached copy).

JOHN C. McNEILL,
Captain, USAF
AFCEC-1K2

AFIC Form 164
US AF Tech Info Sheet

U.S. AIR FORCE TECHNICAL INFORMATION SHEET

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes, and will be regarded as confidential material. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that, if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

17 Day Nov Month 1960 Year

2. Time of day: 1800 Hour 03 Minutes

(Circle One): A.M. or P.M.

3. Time Zone:

(Circle One) a. Eastern
 b. Central
 c. Mountain
 d. Pacific
 e. Other _____

(Circle One): a. Daylight Saving
 b. Standard

4. Where did you see the object?

[REDACTED] Nearest Postal Address CINN City or Town OHIO State or Country

Additional remarks: NORTH OF CITY

5. How long was object in sight?

_____ Hours _____ Minutes 3 to 6 Seconds Seconds

5.1 How was time in sight determined? AN ESTIMATE

a. Certain c. Not very sure
 b. Fairly certain d. Just a guess

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	a. Bright
b. Cloudy	<input checked="" type="radio"/> b. Cloudy <u>AT DUSK</u>

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you d. To your left
 b. In back of you e. Overhead
 c. To your right f. Don't remember

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON? *cloudy*

8.1 STARS (Circle One):

- None
 b. A few
 c. Many
 d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
 b. Dull moonlight
 c. No moonlight — pitch dark
 d. Don't remember

9. The object appeared:

As a Bright Light

(Circle One): a. As a light b. Shiny c. Dark d. Don't remember

10. If it appeared as a light, was it brighter than the brightest stars?

Possibly not

11. Did the object:

(Circle One for each question)

- | | | | |
|---|-----|-------------------------------------|------------|
| a. Appear to stand still at any time? | Yes | <input checked="" type="radio"/> No | Don't Know |
| b. Suddenly speed up and rush away at any time? | Yes | <input checked="" type="radio"/> No | Don't Know |
| c. Break up into parts or explode? | Yes | <input checked="" type="radio"/> No | Don't Know |
| d. Give off smoke? | Yes | <input checked="" type="radio"/> No | Don't Know |
| e. Change brightness? | Yes | <input checked="" type="radio"/> No | Don't Know |
| f. Change shape? | Yes | <input checked="" type="radio"/> No | Don't Know |
| g. Flash or flicker? | Yes | <input checked="" type="radio"/> No | Don't Know |
| h. Disappear and reappear? | Yes | <input checked="" type="radio"/> No | Don't Know |

12. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what it moved behind: *came down out of cloud in NEAT vertical direction, then back up.*

13. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what in front of: *Saw clouds behind object*

14. Did the object appear: (Circle One): a. Solid b. Transparent c. Vapor d. Don't Know

15. Did you observe the object through any of the following?

- | | | | | | |
|-----------------|--------------------------------------|-------------------------------------|---------------|-----|-------------------------------------|
| a. Eyeglasses | <input checked="" type="radio"/> Yes | No | e. Binoculars | Yes | <input checked="" type="radio"/> No |
| b. Sun glasses | Yes | <input checked="" type="radio"/> No | f. Telescope | Yes | <input checked="" type="radio"/> No |
| c. Windshield | <input checked="" type="radio"/> Yes | No | g. Theodolite | Yes | <input checked="" type="radio"/> No |
| d. Window glass | Yes | <input checked="" type="radio"/> No | h. Other | | |

16. Tell in a few words the following things about the object.

a. Sound

noise

b. Color

white light

17. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

object appeared circular with tail
when it came down, when it went
back up the tail was no longer visible

18. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
 - b. Like a bright star
 - c. Sharply outlined
 - d. Don't remember

e. Other

Too far to

say

19. IF there was MORE THAN ONE object, then how many were there?

only one

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

20. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

n/a

21. How large did the object appear to you as compared to an object with which you are familiar?

Considerably bigger than a star.

22. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

—

23. Did the object disappear while you were watching it? If so, how?

*Came down out of clouds and
back into them*

24. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

*Comet
Fire works*

25. Where were you located when you saw the object?
(Circle One):

- a. Inside a building
 b. In a car
 c. Outdoors
 d. In an airplane (type)
 e. At sea
 f. Other _____

26. Were you (Circle One)

- a. In the business section of a city?
 b. In the residential section of a city?
 c. In open countryside? *Near ~~residential~~*
 d. Near an airfield? *housing*
 e. Flying over a city? *scattered*
 f. Flying over open country?
 g. Other _____

27. What were you doing at the time you saw the object, and how did you happen to notice it?

Driving

28. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

28.1 What direction were you moving? (Circle One)

- a. North
 b. Northeast
 c. East
 d. Southeast
 e. South
 f. Southwest
 g. West
 h. Northwest

28.2 How fast were you moving? *40 mph* miles per hour.

28.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

29. What direction were you looking when you first saw the object? (Circle One)

- a. North
 b. Northeast
 c. East
 d. Southeast
 e. South
 f. Southwest
 g. West
 h. Northwest
 i. Overhead

30. What direction were you looking when you last saw the object? (Circle One)

- a. North
 b. Northeast
 c. East
 d. Southeast
 e. South
 f. Southwest
 g. West
 h. Northwest
 i. Overhead

31. If you are familiar with bearing terms (angular direction), try to estimate the number of degrees the object was from true North (thru east) and also the number of degrees it was upward from the horizon (elevation).

31.1 When it first appeared:

- a. From true North *330°* degrees.
 b. From horizon *30°/40°* degrees.

31.2 When it disappeared:

- a. From true North *330°* degrees.
 b. From horizon *30°/40°* degrees.

34. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One)

- a. Clear sky
 b. Hazy
 c. Scattered clouds
 d. Thick or heavy clouds

WEATHER (Circle One)

- a. Dry
 b. Fog, mist, or light rain
 c. Moderate or heavy rain
 d. Snow
 e. Don't remember

35. When and to whom did you report that you had seen the object?

14 11 60
 Day Month Year

Civil Defense

36. Was anyone else with you at the time you saw the object?

(Circle One) Yes No

36.1 IF you answered YES, did they see the object too?

(Circle One) Yes No

36.2 Please list their names and addresses:

37. Was this the first time that you had seen an object or objects like this?

(Circle One) Yes No

37.1 IF you answered NO, then when, where, and under what circumstances did you see other ones?

Saw Echo and various "comets"

38. In your opinion what do you think the object was and what might have caused it?

Noise - Airplane on fire

39. Do you think you can estimate the speed of the object?

(Circle One)

Yes

No

*Lived near Air
Base.*

IF you answered YES, then what speed would you estimate?

Fast Speed.

40. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes

No

IF you answered YES, then how far away would you say it was?

10 miles, good distance

41. Please give the following information about yourself:
