UFO SIGHTING, BEAUMONT, TEXAS
20 July 1961

The following is a re-recording of conversation 20 July 1961 between Trans Texas Airlines flight 110 and Beaumont Approach Control by _____ (?), Beaumont, Texas, for the exclusive use of U.S. military intelligence.

Runway 11R2, winds calm, indicating northeast, over.

OK and do you have some kind of fast maneuvering airplane flying over Orange this morning? A couple of them? They are real shiney.

I have none reported in the vicinity of Orange.

Look out over the bay and just southeast of you some 6000 feet. Something real bright and shiney, it looks like it hovers for a while then it maneuvers real fast. It gets real, real bright then it gets dull. It doesn't look like an aircraft.

Roger, I will take a look and see what I can see.

Just look down there toward the high bridge and up about 6000.

long pause

I don't have any aircraft in sight. I have low cumulus between the airport and the high bridge. Possible the target or aircraft could be behind the cumulus where I couldn't see it.

It is just south of Orange. You probably can't see it. It is just as bright as a diamond. Looks like it hovers for a while then it maneuvers for about 5-6000 feet just within a second or two.

Tell you what, I'll see if I can see it and if I do, I'll tell you. (I'll let you know)

You got radar down there? I'll see if I can pick up something.

pause

We are picking up two targets. One is southwest and the other one is south of Orange in the station here. It's not part of the ground clutter, and it doesn't appear to be any weather.

That is, roger, we got it sighted. It is not weather. It is almost hovering, and it is the brightest thing we have ever seen. It is very maneuverable. We saw it once up about 5500 and it disappeared and about a minute later we saw it at at least 10,000. It looks like it is down there about ____ (?). What runway can you give us.

July 1: Sacramento, Calif. Several residents reported a bright UFO which zig-zagged across the sky, occasionally hovering, with its light blinking on and off.

July 6; Mt. Hope, Wisc. A rotating object, with blue and red lights seen at times, was reported flying at a low altitude near Mt. Hope. According to a press account, AF planes were sent to investigate, but Truax AFB denied knowledge of the report.

July 7: Muskegon, Mich. A UFO which "looked like two big metal bowls, one on top of the other, with a flashing light on top," was seen hovering at tree-top level. As reported to police by John Freeman and family, from Ft. Wayne, Ind., the UFO rose silently after a few seconds, then climbed rapidly out of sight. As it moved, the flashing white light became secondary.

NOT RECEIVED !! *Re: News Briefs: Possibly Identified as Meteor at Lake Michigan*
NEWS BRIEFS: A short clipping we received from Bay City, Michigan, dated July 10th, is so intriguing that we only wish we had more details. We quote the clipping in full: "Mt. Pleasant - Air Force officials at Wurtsmith AF Base at Oscoda have promised a full investigation to the sheriff's department of Isabella County on the UFO that flew over the area last week. The officials stated to Isabella County Civil Defense Director Ray Martin that a full radar study and report would be made. Many Central Michigan area residents reported the large round object flying northeastward over the area about a hundred or so feet off the ground. One motorist reported to state police at Mt. Pleasant that he thought he was going to be hit as he drove along highway S.A. 27. The UFO gave a brilliant blue light as it passed over."

July 10; Pontiac, Mich. A blimp shaped object flashing brilliant orange and white lights was sighted between 3:00 and 3:30 a.m. by dozens of witnesses, including police officers. Two teen-age boys, fishing at North Lake, fled when the UFO began descending nearby. Other witnesses included: Police Sgt. David Purnam and Patrolman Fred Souver, Waterford; Deputies Robert MacFarlane and Richard Hubble, Independence (confirmation of hovering at treetop level); and Corporal Marland Landon, State Police, who sighted "a big, brilliant object at a high altitude" and insisted it was not a balloon. Selfridge AFB told police they would investigate the sightings but no official report has been released to date.

RECENT NEWS STORIES

CALIFORNIA NEWSBOY ATTACKED BY SAUCER: A Sacramento, California newsboy either has an unusually wild imagination, or else he has had one of the most interesting experiences with a UFO on record. Thirteen-year-old Phillip Wayne claims that at dawn last July 11th, he was delivering his papers as usual, when a series of astounding events occurred. He was holding a newspaper over his head, ready to throw it onto a porch, when suddenly the paper disappeared from his hand. He reached for a second paper, and the same thing happened. A third paper was also jerked from his hand, at which time he "felt a suction," but heard no noise. "I looked up," said Phillip, "and saw two things

WHAT? NO REPORT FORWARDED TO AFSC! WHY NOT?

that looked like flying saucers. One was larger than the other, and both were about 80 to 100 feet above the ground. The larger saucer was 50 feet in diameter, and the smaller one was 40 feet across. They were shiny aluminum and seemed to be standing still. I've seen pictures of saucers, but these were different. They had lots of corrugated pipes protruding from different angles, like organ pipes of different lengths." Phillip added that he "took off like a scared bird," and went back later, checking for his three missing papers. He never found them. The boy told his story to high Air Force officials, who apparently did not take it seriously, although they claim they are investigating the incident.

Dear Mr. [REDACTED]

Your note to President Kennedy of July 12th was referred to this office.

Although the Air Force does investigate all reported sightings of unidentified flying objects, it is our belief that this particular article from the SACRAMENTO UNION was published for its humorous aspects.

The attached fact sheet, 'Air Force UFO Report', will give you an idea of Air Force findings resulting from analysis of UFO sightings. I hope it will be of interest to you.

HOW TO COLLECT for three missing Sacramento Union newspapers is the dilemma of Philip Wayne, 13-year-old Union carrier, who reported the papers were jerked, one by one, from his hand early Tuesday. The newspapers were whisked up to two flying saucers, hovering overhead, says Philip, who doubts he'll ever be paid for them. Air Force officials are "investigating" the incident.

'It's in Outer Space, How to Collect Now'

By DICK POLLORD
Staff Writer, The Union

Somewhere in infinite space this day, The Sacramento Union is being read avidly.

The Union's interstellar edition, although it was not so labeled by earth-bound editors who have time only for deadlines, was literally whisked away, as if by a silent vacuum or a magnet, from the disbelieving grip of a carrier for The Union Tuesday at dawn. And it zoomed straight up into the maw of a flying saucer.

Do not laugh, jeer, scoff or raise a cynical eyebrow above the coffee saucer, earthling. You do not believe in flying saucers? How, then, can you believe in the reality of your coffee saucer? Which is the illusion? Are you sure?

NO PAPER

Read, earthling, of the experience of Phillip Wayne, 13 years of age, a youth with a talent, for plopping your Union against the door without waking you.

Philip said he was delivering The Union in the 3400 Evergreen Circle block of Meadowdale. The time: the magic trysting hour of

daylight and dark, a somnolent 5:30 A.M.

"I reached my hand over my head to throw a folded newspaper," he related, "and suddenly there was no paper in my hand! I thought I had missed and reached for a second paper. The same thing happened. When the third paper was jerked from my hand, I felt a suction, but heard no noise.

"I looked up," said Phillip, "and saw two things that looked like flying saucers. One was larger than the other. But were about 80 to 100 feet above the ground.

STRAIGHT UP

"And those newspapers were soaring straight up to those saucers!"

"The larger saucer was 50 feet across and the smaller one was about 40 feet across," said Phillip.

"They were shiny luminium and seemed to be standing still," said Phillip, in an awed whisper. "Now

"If you are not waking up with a smile call VALLEY MATTRESS"

(Continued from page one)

I've seen pictures of saucers, but these were different. They had lots of corrugated pipes protruding from different angles, like organ pipes. Different lengths." What did Phillip do?

"I took off like a scared bird," said he. "Later I went back, checking for the missing papers. I counted my stack three times. Three were missing. I never found them."

Philip told his story to high air force officials. They listened. And they gave him "security clearance" to tell The Union about his experience.

The Union tastefully resists the temptation to point out the obvious: That Martians, Moon Men, or the inhabitants of Venus, did not chose the New York Times, Washington Post, London Times, or just ANY Sacramento newspaper in their quest for news.

It is sufficient to say: they chose The Union.

2. No report was made to higher headquarters or AFIC on either of the reported UFOs listed in Mr. [REDACTED] letter for the following reasons:
 - a. Investigation and checks with all agencies in the local area indicated that the sighting over the southwest Washington area on July 12 was a SAC training refueling operation in that area and was not reported because it did not fall into the definition of an UFO as stated in AFR 200-2.
 - b. Preliminary investigation at this base of the sighting on 16 October indicated that the object sighted was an F-106 taking off from this base. Consequently this was not reported in accordance with par 2.b.(2) of AFR 200-2.
3. Since Mr. [REDACTED] has requested details and evaluations and since we do not know the use he might make of these, we have not contacted him except the brief note attached.

A fleet of UFOs appeared late one afternoon in July 1961 to an observer driving west along Highway 54 from El Paso, Texas, to Alamogordo, New Mexico. It had been raining in the mountains, and wind and dust storms had forced the driver to stop several times during his trip, but now the sun was shining between patches of dark cloud in the western sky. Driving toward the outskirts of Alamogordo, he startled to see a V-shaped formation of huge saucers flying directly toward him. Stopping his car, he saw that they were glowing a deep red, were moving at high speed, and seemed to be as high as the clouds. When they had reached a point nearly overhead, they suddenly seemed to drop down toward the observer. Rapidly revising all his first estimates of size, height, and speed, he recognized their true identity. They were merely a group of tumbleweeds that had been carried aloft in the strong winds and were soaring past at a height of only 100 feet. Illumination from the setting sun had produced their weird reddish glow.

Maj. William T. Coleman
SAFOI-3
Room 4C-922
The Pentagon
Washington 25, D. C.

Dear Bill:

On my return from the western swing I find a sizable amount of accumulated flying saucer material. I want to thank you and Major Friend, and Colonel Evans for all of the helpful material, including the suggestions for improving our chapters. Many thanks to all of you.

On my western trip I ran into a daytime sighting that was a honey. I was driving on Highway 54 from El Paso, Texas to Alamogordo, New Mexico, and I was in the outskirts of the latter city, having just turned west where the road meets the one coming from Las Cruces and the Holloman Air Force Base. The time was 4:00 p.m. The sun was shining, although the sky was heavily clouded toward the west. It had clearly been raining in the mountains and heavy dust storms had forced me to stop two or three times along the highway. I was suddenly startled to see a V-shaped formation of flying saucers heading eastward directly toward me. They appeared to have a reddish glow and were moving very rapidly. I had the impression that they were nearly at cloud level. They approached me rapidly and suddenly seemed to drop in on me. I then realized that they were merely a grouping of tumbleweeds carried aloft in the heavy wind. They were, perhaps, some hundred feet over head. The weird glow was caused by the illumination of the setting sun. Keep this in mind for similar reports.

Mrs. Boyd and I have been struggling to interpret the famous Rapid City, South Dakota, case of 12 August, 1953. The report has so many features that are suggestive of the mirage of a star, that we have strongly leaned to that interpretation. The bright star, Capella, which happens to be circumpolar at Rapid City, was indeed very close to the horizon, just east of north. We do not have very good times or estimates of the total duration of the sighting. I wonder if you have any additional material that you could send us, in view of the importance that the UFO boys attach to this sighting. In particular, we should like to know what is the radius, in miles, of the radar screen and what was the frequency. The weather records indicate

Maj. William T. Coleman

July 13, 1961

-2-

that a very sizable temperature inversion was present, and this was ample to magnify some of the radar and optical effects. The radar, especially, could have been deflected back to the ground and the moving object might have been some secondary reflection from the plane itself. Is there any additional information about the man who claimed to have checked the UFO against the triangle of stars, and deciding that it moved with reference to those stars? Sounds that it might have been autokinesis, unless this motion was really very sizable.

One further question that we have. ^{Our} A study of the ^{Laurence} Chiles-Whitted case indicates that the UFO was merely a meteor. Apparently this was a considered solution in the early days. We wonder why it was abandoned.

Thank you for the additional sightings, all of which are useful and lend freshness to the book. Also, I think you were going to send me one from the south, where airline pilots reported not only seeing a saucer but certain roughness of the air which, according to your own observation, was due to forest fire or oil well fire, or something of the sort.

Again, with our many thanks and best wishes, I am

Cordially yours,

Donald H. Menzel

Dear Mr. [REDACTED]

Your letter of 14 January 1962 has been referred to this office for answer.

Neither of the specific sightings you mention were forwarded for record purpose because investigators at the initial reporting level were able to establish positive identification.

The sighting in the Chehalis-Morton area on 12 July 1961 was determined to be a SAC training refueling operation.

The sighting near Tacoma, Washington on 16 October 1961 was determined to be an F-105 aircraft from McChord AFB.

The inclosed copy of AFR 200-2 has applicable portions noted for your information.

Thank you for your interest and we hope the above information will prove satisfactory.

be told to destroy our "A-Bombs" and
"H-Bombs", "COBALT BOMBS" and
"NEUTRON BOMBS" - OR ELSE!!

I believe they are afraid of
"Cham weather", that would also
destroy them and perhaps even "The
GALAXIE". All the while we are
moving now, with new forces of
destruction and the means to carrying them.

The Day here, when about
9 P.M. all of her daughters screamed
"Mamma, look, over the trees at
the tennis courts!! A HUGE
ORANGE DISC," hovered above
the trees, spinning and glowing
like a round ORANGE NEON LIGHT.
When moved back and forth
as the "Police" and "HERIFF'S PATROL"
etc. rushed over to investigate, the
bright phone calls from the Minutemen
everyone saw the "U.F.O." then it just
flicked out of sight without a sound.

Some "U.F.O.'s" were
over the ST. AUGUSTINE HIGH SCHOOL
one day, everyone watched them -

(5)
- just standing from underneath it.
It was about fifty feet above
the water and just "HOVERED"
there. "THEN" IT JUST
DISAPPEARED." Her words.

The next day she was
having lunch with her girlfriend
Pat Kuehn from (CASA'S REPRESENTATIVE),
when she overheard the lady next
to her telling HER friend about the
"U.F.O." that scared her the night before.
She said she was afraid to tell
any body about it because they
would think she was crazy.
[REDACTED] said "I've not [REDACTED]
lady from [REDACTED]" They were
quite shocked about it. -

It was like the "full moon"
sat over the area then
moved to the North west.

Again about 11:30 P.M.

When [redacted] ([redacted])
she also works for the (ST. AUGUSTINE
RECORD - NEWSPAPER) here, was
parking her car in front of her
home on the Bay Front. As she
locked the door, she heard a
humming noise and looking
out over the water she saw
a HUGE (UFO) "GLOWING DISC"
about 50 feet in diameter and
about 15 feet high glowing and
shining white and humming and
buzzing. While had 4 UFOs -

at 3:30 P.M. while I was living at
 40 Marine St, one block from the
 BAY FRONT here in St. Augustine Fla.
 I was sitting reading
 near a southern exposure window
 when a bright ball of light caught
 my eye, coming from the south-
 east. I rushed to the picture
 windows looking Westward (clear
 view) and there about 1000 feet
 up and going about 600 miles per
 hour, was a round bright disc
 about 50 feet in diameter and
 glowing like a "greyish white"
 "NEON LIGHT". It had an eerie glow
 to it. As it was almost overhead
 I could not see any superstructure.

A minute or two later, two
 jets (Air Force) came roaring
 after it. The "disc" did not
 make a sound. All I could
 say was "FANTASTIC!!". For
 years I have been trying to see
 one of these U.F.O.'s and when you
 least expect it there it is.
 Other people also saw it
 along the beach and over the city.
 It hovered back and forth along the
 beaches, over Ponte Vedra where
 Mr and Mrs [redacted] and other
 neighbors watched it and other
 people on Crescent Beach saw it
 moving all over the ship.

I do not think this is actually a "radar" sighting. The weather radar (on the ground) saw two targets in the general vicinity of the reported sighting, but I do not think you can reasonably assume that either of these is the bright target sighted visually by the aircraft.
