Dear Sirs

As my wife & I & Kids were watching a movie at drive in theater. We were facing South at about a 45 degree angle we observed a light the color of the stars moving from a westerly direction to a easterly direction. About the size of echo- it moved on past a direct Southward line to a eastward position and I presume out of the suns rays as ~~shown~~ shown at the earth. Other words declined & turned around & came back a little higher in the sky. I first thought it was echo as it was about its size maybe bigger & it appeared to wobble as it went but when it turned & came back, I then presumed it was a controlled space craft of some sort. If it had been a jet that high you could not have made out a light. This was on Aug 4, 61 at about 11:30 day light sunny time. I have always thought we have some thing that our gov. & its wishes the Right People not to know about I hope then we are

being visited by some unknown beings
as I do not believe the Russians are ahead
of us.

Sincerely yours

(13) My mother saw she said what appeared to
be a object about the size of a stone
Pipe and about 30 ft long trailing vertically
it came over when she was sitting & was
heading in a north westerly direction. School kids
came in and said something like spiders were
fall. This was in 56 or 57 I never did write
as it seemed like the air force & you was
always making excuses for what you saw
as trying to tell you you just imagined
you saw it. Just thought I would mention
it for what it might be worth.
