10. BRIEF SUMMARY OF SIGHTING Silver objt, larger than a/c. Appeared to be spinning. 3 lights k like neon. Disappeared to N.			11. COMMENTS Witness watched objt through telescope, yet could not determine az or elevation, suggesting that he did not know how to use a telescope. Witness did not know how long the objt was in view. Apparently only thing he knew was that he saw a large silver objt. moving across sky. Due to lack of sufficient data, a valid conclusion cannot be made as to nature of objt.
