1. DATE 16 Oct 61		2. LOCATION Gettysburg AFS, South Dakota		12. CONCLUSIONS <input type="checkbox"/> Was Balloon <input type="checkbox"/> Probably Balloon <input type="checkbox"/> Possibly Balloon	
3. DATE-TIME GROUP Local <u>1805</u> GMT <u>170005Z</u>		4. TYPE OF OBSERVATION <input checked="" type="checkbox"/> Ground-Visual <input type="checkbox"/> Ground-Radar <input type="checkbox"/> Air-Visual <input type="checkbox"/> Air-Intercept Radar		<input type="checkbox"/> Was Aircraft <input checked="" type="checkbox"/> Probably Aircraft <input type="checkbox"/> Possibly Aircraft	
5. PHOTOS <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No		6. SOURCE Military		<input type="checkbox"/> Was Astronomical <input type="checkbox"/> Probably Astronomical <input type="checkbox"/> Possibly Astronomical	
7. LENGTH OF OBSERVATION 20 min		8. NUMBER OF OBJECTS 1	9. COURSE Varied		<input type="checkbox"/> Other _____ <input type="checkbox"/> Insufficient Data for Evaluation <input type="checkbox"/> Unknown
10. BRIEF SUMMARY OF SIGHTING Objt size of baseball. Heavy contrail, apparently heavier at time, reportedly disappearing during maneuvers. Objt appeared fm 260° aprox, proceeding in NE track, turning to S, proceeding SW along same track as inbound sighting. Initially appeared fm horizon and was under visual observation until it disappeared over horizon and under visual observation at 0° on outbound track. Turns were abrupt.			11. COMMENTS Witnesses sighted what they thought to be a contrail heavier than that normally left by a/c. There were 2 B-52's in area at time with with a flight path closely paralleling that of reported objt. Witnesses probably saw 1 of these a/c and intermittently heavy contrail could have been caused by layers of air of slightly different temperatures. It is therefore concluded that objt reported was probably 1 of a/c in area.
