10. BRIEF SUMMARY OF SIGHTING Objt passed directly over house. Looked like saucer with tail pointing NW. Night was clear. Objt much bigger than stars. No moon. Objt seemed to stop and go. Varied directions lightly. Disappeared descending over air base. Observed through living room window. Objt took 2-3 min to get over head and 10-12 to go SW to Air Base. Disappearance was slow like lighted match going out. Brighter than echo and faster also. More reddish. Yellow light appeared to be spinning no sound.		11. COMMENTS Dr. J. Allen Hynek talked with witness. Impression of objt was that of helo in flight path over house landing on running light. Tail gave appearance of saucer. Clincher is disappearance over air base. Speed consistent with helo.
