7 August

At. 20.23 pm.

FS

Dear Gentlemen

On the evening of the 7 August 1962 we saw a clear light in the sky. It was going from West to East. This is not exact for we had not a compass. We thought that it was a heavenly body but therefor it went to fast along the sky and then we got the thought that it was an object of mysterious origin and while we got this thought we said to each other: We have to write this to the men of Cape Canaveral and so here you see our letter.

We would like it if you gave <sup>us</sup> any answer about this. There is one particularity more that is: on a given moment the light put out slowly, we had seen it then for about 4 minutes.
