Dear Sir:

I wish to report that an unidentified flying object was spotted. At approximately 10:30 PM, Friday, September 3, 1962, I spotted the UFO from my room. The object was red with a stationary red light on top and two flashing red lights on the bottom. The object stood still in the sky and then started moving at an incredible speed. It was out of my sight in a few minutes. This object was observed by five(s) people including myself. I would rule out the possibility of a helicopter, jet, weather balloon, satellite, airplane, etc. It couldn't have been a meteor because they don't stop in mid air and flash two red lights.

I won't say it was a flying saucer but I won't discard the idea. All I can say is, I can't explain it. This is NO HOAX!

Dincerely yours,
