10. BRIEF SUMMARY OF SIGHTING Bright white, star-like obj. Brighter than most stars, but not as bright as the brightest star. About the size of the stars in the sky but not as big as a bright planet. Just faded out.		11. COMMENTS This rpt was sent in two (2) yrs after the incident occurred. It is possible that it could have been a light on an a/c or balloon, but due to the lapse of time an investigation of the incident is impractical.  SAC
