Dear [REDACTED]

Reference your recent letter to my office. I appreciate your honesty in telling me that your UFO was a fraud. I am sorry, for your sake, that your parents' severely punished you for your actions. I am sure that you will grow up to be much wiser because of their concern over what you did without their knowledge.

I would like to ask one favor of you; however, I would like for you to talk it over with your parents'. I would like for you to donate your original photographs to the Air Force. If you still have it, I would also like for you to donate the object which you photographed with an explanation as to how you put it together.

The reason I want the object and the photos is to show others what has been done to fake an alleged flying saucer. I will not reveal your name to any one except my staff.

I am inclosing some information which you might enjoy since you like to read about the UFO phenomena.

Sincerely,

*H*

TDPT (UFO) [REDACTED]

Gentlemen:

I was thirteen years old in May and I am very much interested in flying and flying objects. I used to be so interested that I would go out on warm summer nights and wait for flying objects. I never did see any so I prepared some objects and photographed them with my swinger camera. They were so realistic that some of my class mates wanted me to send them in, so I did. My parents had no knowledge I was doing this. I am truly sorry for my actions. The witness I stated in my letter had no part in the matter. I have been severely punished for my actions by my parents. I promise you this will never happen again.

Sincerely,

Dear [redacted]

Reference your observation and subsequent photography of an unidentified flying object (UFO) on March 10, 1967.

The photographs were examined in hopes of identifying the object. The object appeared to be circular, basically flat in shape. Lack of sufficient foreground and/or background detail precluded a scale factor to size the object. This lack of describable features prevents a positive identification of the object.

Inclosed are the photographs which you submitted for analysis.

Thank you for reporting your observation to the Air Force.

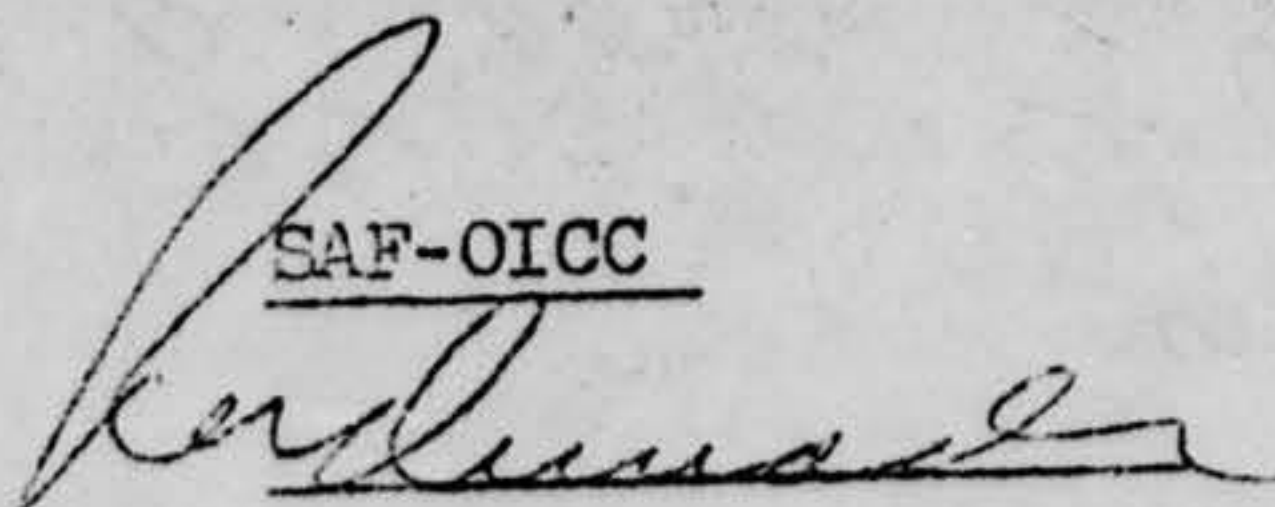

Sincerely,

BARNETT B. YOUNG

Chief, Civil Branch

1. PURPOSE: This report is in response to Work Order Number 67-59 submitted by Major Quintanilla, TDETR, to determine the identity of the object photographed.

2. ANALYSIS: The photography appears genuine insofar as content is concerned. Examination of the two submitted Polaroid-type prints has negated double exposure and/or retouching. The object appears to be circular in planform, basically flat in cross-section with a domed superstructure. The object also gives a sandwich-like appearance with the middle section being darker and possibly smaller in diameter than the outer sections. Source did not indicate a size for the object or distance from the camera to the object when photographed. Lack of sufficient foreground and/or background detail precluded a scale factor to size the object. No satisfactory explanation could be made of the unidentified object.
