I photographed it in the
standing position. Then
it stretched out again
and began to rise slowly
up. I took a picture of
it rising. After that, it
disappeared behind some
rocks and I ran after it
but it did not cross the
creek. That was the last
we saw of it. This all
happened sometime between
1:00 and 2:00 on Wednesday.

Dear Sir,
Per the I wrote you
about the same thing
O. on August 9, 1957. I
also sent you pictures
which I took of it.

I certainly would
appreciate it if you
would send me back
the two pictures as
soon as possible. It
is necessary that
I have the pictures by
September 26.

1. Reference your letter of September 14, 1967 in which you reported your unidentified flying object (UFO) observation and subsequent photographs of August 9, 1967. Additional information on your sighting and your original negatives are needed to perform a scientific investigation. Request you complete the attached photographic data sheet and FTD Form 164 and return them with your original negatives. Upon completion of analysis we will return your negatives along with our findings.

2. Your letter indicates that three photographs were taken of the unidentified object, however, you forwarded only two photographs. Would you please state whether two or three photographs were taken.

3. Reference your letter of September 19, 1967 in which you requested the return of your photographs. Your two photographs are attached. An analysis has not been performed on them.

Dear Sir,

I am against writing you
letters. I know that you
get hundreds of letters
every day, so I don't want to
take too much of your time.

I am on 8th grade, 13
years old, at Taylor Sr. High
in Dallas, Texas. Recently,
me and a friend of mine
went riding our bicycles
to school, and we discovered
this object which I
enclosed a picture of. The
enclosed is the object that
I found right at school
the picture.

The one that looks like Libby's
daughter is the second picture
I took, and the other one is
the last one I took. The
first picture I took did
not show up.

I hope you have not had
any trouble with your valuable
time.

Sincerely,

~~_____~~

P.S. If it is not too much
trouble, would you please
send me some information
on Project Blue Book. Thank
you very much for your
time and patience.

U.F.O. sighting

(On August 9, 1957, me and a friend of mine had been riding our bikes around together. We were coming back to my home by way of Perry Road when my friend (~~name~~) pointed toward the side of the road. I couldn't see what it was until I caught up with him. There, through the trees was some bright object. At first, I thought it was a plane, but I laid down my bike to investigate anyway. After ~~that~~ and I had run a little ways toward the object we could see it more clearly. It was not an airplane, but looked like a giant metallic hat. It was a silvery white color on top. In the bot-

)

tom it was black with
a white spot in the
middle. I wanted to
a little while, but looked
fit it was spinning.
I couldn't say how
high or big it was. If
I watched a bit I decided
to go home and get my
camera. I ran to my
bike and packed bones
as fast as I could. I
live just a few blocks away
so it didn't take me long
to get back. The object
hadn't moved much,
but told me to hurry
up and take the picture.
My hands were shaking
when I took it. I was
ready to take another
picture when it began
to move. Which way, it
had been hovering in
a flat position, but now
it began to rise and start.
