Dear Sirs:

At approximately 9:45 this evening, my younger sister and I observed a U.F.O. in the sky while stargazing. I am 15 years old and my sister is 11. For the past 4 months or so, I have been a serious student of the U.F.O. mystery but believe me, I never thought I'd see one myself. Let me describe to you what I saw and perhaps you may be able to find an explaination for it.

My sister, an unbeleiver in U.F.O.'s, sighted the object first and attracted my attention to it. My first impression was that it was some sort of a plane or satellite, but after watching its strange behavior I realized that it was something out of the ordinary. It was a fairly bright, consistant white light, with occasional flashings of red. It first appeared directly overhead, moved across the sky a distance, blinked off, blinked on, and continued to do this until it was rather low in the north-east sky. It then completely vanished, just like a light being turned off. That was the last we saw of it. And another strange thing, as I have read in many U.F.O. reports, a low-flying jet came into the sky about 10 minutes later and went off in the same direction from which the U.F.O. disappeared. Please beleive me, I have never seen anything like this before. I would be happy to fill out one of your U.F.O. Sighting forms, in hopes that you may be able to explain what I saw.

Yours truly,

Servel 164

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you last saw it. Place an "A" on the compass when you first saw it. Place a "B" on the compass where you last saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

A = 0. Stoppe (an) Stoppe (an)

29. IF there was MORE THAN ONE object, then how many were there?

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

		No		
31.1 IF you ans	with you at the time you saw wered YES, did they see the of their names and addresses:		Yos N	No 0
2. Please give the I	following information about yo	ourself:		
ADDRES	Last Name	Pd. Lincoln City	Zone	Illinois State
TELEPHONE NU	itional information about yours	AGE 15 SE		might be pertinent.
3. When and to whom	m did you report that you had :	seen the object? 177r. A	Irthur IV.	Bree
Doy	Month	191.7 Year		

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

Dure you completed into questionnaire:	Day	Month	Year
4. Date you completed this questionnaire:	22	June	1967

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

about 5 minutes (or less) following the disappearance of the UFO, a low-flying jet came overhead and flew off into the same direction from which the UFO had disappeared.
