COSMIC IN-COMING TIDE

By the Editor

Our planet Earth is moving into the Aquarian, New or Golden Age period. Cosmic Rays and influences, known and unknown to us are bombarding and pouring into our earth, our bodies and our consciousness.

The Aquarian Rays are breaking up old conditions, old conventional methods, traditions and old limited concepts. In fact, the Aquarian Influence is wiping out all former concepts to make way for the entirely new!

Entirely new ideas will come about naturally. New expressions will bring direct truth to our people. The old Race-Habit-Pattern is dying a very rapid death.

Our friends from outer space and inner dimensions are contacting us quite naturally within the In-coming Tide of Good Cosmic Influences. Cosmic and Spiritual healing therapy is penetrating our earth sphere. The Outer Space craft are communicating to us not only Wisdom and Truth, but also a healing therapy for conditioning us to understand the new change coming so rapidly. Our human bodies are being spiritualized and toned-up to respond to the higher frequency vibration of a more subtle and refined atmosphere of the Universe. In other words, we are being prepared for a state of "Christ-Awareness."

The Christ-body is a body of Light and lives in Holy Inner Light. Aquarius is an Air Sign moving on into the Light or Christ-Light-Awareness sphere.

It is the purpose of this magazine to help our people to become "Aware" of the Truth of being now in Reality.

Also, to establish better communications and a closer affinity with our own people as well as those in Outer Space, other worlds and stars, etc.

This magazine is attempting to gently remind our people to turn inward before they can understand the phenomena of life, whether it is their own physical body, their spirit or their soul, or even a flying saucer. Now we must turn to the Cause, rather than to study from the effects only. So, therefore, Inspiration from the Holy Spirit into the human body-mind is also necessary.

If we turn within and look for the Source of the Light, the Source of the Creator's Light, we open to the Cosmic and Spiritual Inspiration of God's Love, Wisdom and Truth now pouring into our sphere from the Higher Consciousness Fields of Awareness of the Universe Itself.

There is no time left for arguments or discords. Now, all who will, must agree in Christ-Love for the benefit of all humanity. Otherwise, to those who do not gather together in this kind of an Agreement, they will not survive during the great change.

How do I know this? Because there is a Cosmic Schedule to be met by this Space Ship, our so-called Planet Earth—Shan. And also, I know that we, the Planet Earth-Shan people are Interplanetary Beings, even within the spaces of the atoms within our own physical bodies. So, there is Hope, much Hope for all of us!

THE COVER SKETCH

This sketch by your editor is purely inspirational and is an abstract picture of the space ship intelligences awakening us out of our state of apathy

The Single Eye represents the Inner Vision of the Higher Consciousness. Without this vision, we would be lost. Our Space and Cosmic Friends are stimulating this inner vision into activity now for our own benefit. The Inner Vision must be awakened now in man of this earth so that humanity may improve its own Leadership into a New Age of Love and Understanding.

THE NEW AGE IS FOR MARY

By the Editor

Yes, the New Age belongs to Mary, the mother of Jesus. Jesus, who brought the Divine Father's Christ-Spirit and the Comforter to this Planet Earth-Shan.

Mary is also the spiritual mother of the human race. And she is the Spiritual Counterpart of Man himself. For She is the Divine Feminine Principle of God Himself.

The Divine Lady has been working for her human children silently with the Christ, down through the ages. She is the Daughter of the Creator's Word, the Voice of Oneness.

The Divine Lady through her highest representative, Mary, the Mother of Jesus, will be the Comforter to humanity in the New Age as She was to His Disciples after the first Pentecost.

But first, there must be Peace in this world, before Her Divine and Sweet Presence will be known.

Man must understand that Mary is the other half of himself. For only through Mary can man find his Unity with his True-Self. And only through Mary can the Earth-Shan woman free herself from the bondage of Duality.

(There is a most beautiful and inspiring little booklet written by Corinne Heline, titled "The Life and Mysteries of the Blessed Virgin." This booklet can be ordered from the New Age Publishing Company, price \$1.00).

Corinne Heline writes in the Foreword:

"The early Church understood and taught the truths pertaining to Initiation as these had been preserved in the Mystery Temples through the ages past. It was on these truths that the Church was founded. 'Thou art Peter (*petros*, the Greek for rock) and upon this rock I will build my church,' said the Christ, the rock being none other than the Philosopher's Stone or the Rock of Initiation.

“It was a part of the Mission of the Lord Christ to re-establish the Ancient Mysteries and to give them a new impulse that would enable man to attain to heights of consciousness not hitherto possible. Among His disciples, the Blessed Mary was not only the most advanced but She was also His most efficient Co-Worker. In the coming New Age Mary will not meet with either Protestant indifference nor Catholic deification, but will be recognized as a perfected human individual and a Master-Ego whose ministry, like that of the Christ, is to all the world.”

For it is She, the Divine Lady, through her highest representative, Mary, the Mother of Jesus, who is the Philosopher's Stone, the Rock upon which He built His Church, (*Church*, translated means, *expression of the soul*) so, the Divine Lady is the Creator's own soul-expression. She is His Own Special Heaven through which He creates worlds, planets, stars, moons, suns and the Christs all united as the “One.”

“MY GOODNESS, MY SAUCERS!”

The sponsored Flying Saucer has arrived! A “plane will fly over Yorkshire and Lancashire at night with a neon advertising sign under its wings—first neon advertising of its kind.” (*Crosby Herald*, 11/12/53). Yorks. and Lancs. spotters, beware!—*F. S. News* (England).

ICED-UP SAUCERS

An American research institute claims that more FS have been seen *inside* the Arctic Circle than outside it. Figures show 126 reports of saucers from Alaska, 103 from Greenland and 187 from elsewhere in the Arctic Circle.—*South Wales Echo*, 10/11/53.

THE SOLAR MAN

The editor was pleased to receive compliments, inquiries and requests for more of Mr. Joseph C. Bonner's work.

Mr. Bonner's message titled "What More Need Be Said?" was published in the November issue of Interplanetary News. And a certain reader sent in a question requesting Mr. Bonner to answer. This question is in regard to the Number and Mark of the Beast as written in the Bible. I sent the question on to Mr. Bonner.

"Dear Mr. Bonner: I know you are among other things a student of Hebrew, so, would you please answer this question sent in by one of my readers: 'We have read and heard that The Mark of the Beast is 666. The sixth letter of the Hebrew alphabet being a V, is this number 666 really derived from three V's (VVV) and is it the Mark of the Beast?'"

Here is his reply:

"No, the sixth letter, VAV (pronounced VUV) is written 777. The dot in the center VaV changes that consonant to a vowel (U). VaV is nothing more than the name of the sixth letter in Hebrew. This number has nothing whatever to do with 'The Mark of the Beast.' According to the Inner Sacred Teachings of the Zohar, that has a different number entirely.

"666 is a key symbol representing the 'Lower' Mind. This has been falsely inferred as the 'Mark of the Beast,' the lower or passionate mind, by self-styled occultists. The truth of the matter is that the 'Lower' mind means 'the below the head,' in other words, the abdominal mind, the mind of 'King Sol-o-man,' Sol-o-Man, the Solar Man or brain and is represented by the code letter 7 (V) spelled out as 777 (VuV) and later changed by numerologists into '666.'"

"When man rises in Consciousness upwards through the Sphere 555 which is the realm of the 'Ego,' or Big-I-Am Man, and overcomes his Five Senses and awakens his Sixth,

then only has he 'Passed Out.' *Pasha* means Passover of Sense which is *not* intuition, so-called, but the 'Solar-Brain.' his Lower Sphere 777, and he is in a New Realm 888. But such teachings are seldom divulged to the Animalistic or Swine of Biblical terminology, because it is of no value to them, since they will only distort it, in their ignorance, to suit their own purpose. It is the Kaiser, Hitler and Stalin, etc., to delude others for a Stipulation. But, when one awakens from his Long Sleep of Hibernation and becomes aware of his own True Nature, then all things are added unto him and he no longer needs his makeshift crutches but can walk alone, upright, a New-Born-Son, reading at his pleasure the Fiery Word of Life in every Cloud and Star and Zephyr Breeze."—*The Regent, JCB.*

THE LAW OF GRAVITY RECONSIDERED

A curious but interesting bit of news in the August 3rd issue of *Newsweek*,* relative to Albert Einstein and his new Unified Field Theory, by means of which he has been hoping to correlate and unify the two basic forces of the universe: gravity and electro-magnetism.

It now appears that Professor Hlavaty, of Indiana University, has in turn, so simplified the Einsteinian equations that the Unified Field Theory may soon be taken out of the realm of theory and be experimentally verified. When that is done, says Professor Hlavaty, gravity will be *passé*. It will then be proved to be but another aspect of electro-magnetism, like light, radio waves and other forms of electromagnetic radiation. The earth—and, of course, every other planetary and stellar body—will be proved to be just another magnet.—*Flying Saucer News* (England).

ORTHODOX SCIENCE AND THEOLOGY TO BE REPLACED IN NEW AGE

By George Hunt Williamson

The word, *orthodox*, implies a standard of truth, so that conformity with it is right, and divergence from it error; but the standard itself may vary from age to age.

We can look back into history and see many examples when orthodox views gave way to new knowledge. Most of these changes did not take place overnight. The example, well known to every school child, is the story of Columbus, and how the great scientists of his day called him a crazy fanatic for believing the earth was round. This idea was not Columbus' own, for it had been circulated amongst the ancients for thousands of years; yet, the majority of the people in the world did not embrace this theory until only a few hundred years ago. In fact, there are still people today who believe the earth to be flat!

Many so-called prophets today are foretelling horrible destruction and doom for the people of earth. They claim life is eternal, yet they fear the transition called "death." The space friends are here to help us, not to destroy us . . . and although there are going to be vast changes taking place from time to time on the physical, mental and spiritual planes, still *only the good is to be inherited by man on this sorrowful planet!*

Earthman has reached the stage in his evolution where he must be shown that he is not merely a lonely accident on one world only. His brothers and sisters exist on literally billions and billions of worlds in the Omniverse! As we come more and more under the beneficent rays of Aquarius, cosmic-ray bombardment will become more intensified (for elaboration on this and present scientific discoveries see Valor, Jan. 16, 1954) and *everything* on our planet will be changed vibrationally.

For centuries, Theology has battled Science, and vice versa. What they are arguing about is not known, for the two are really one, and will become one in the "Golden Dawn" approaching rapidly. *All former theories will be discarded . . . or at least improved upon.* We will know definitely *where* we have been inaccurate in the past and *why!* Truth will *not* contradict Truth. Therefore our Philosophy of Life will be built on a science that recognizes a Creator of Cosmos and a Divine Plan working everywhere!

No longer will we be required to follow certain ritualistic practices or believe certain dogma in order to get into "heaven." On the other hand, we will no longer have to swing to the other side of the road to embrace the cold, bare facts of a materialistic science. In short, we are about to "level off" or "get in balance."

Matters are what they are because of certain unstable or unbalanced conditions on the earth planet. With the help of our space friends we are about to enter a "Golden Age," but it won't happen by the time you read this article. We are even now in transition, and it won't be very long before those thought to be "psychic fanatics," will find they are no longer in the minority! Call this New Age a new dispensation, a Golden Dawn or Age, a new density or dimension or Aquarius . . . it really doesn't matter . . . the important thing is . . . IT IS HERE!

There is another battle going on, and that is the West Coast cold-war of the "ETHERIANS" and the "MATERIALISTS." Actually, there is no point of argument, just as there isn't in the eternal science-versus-religion fracas.

If you will read the theories of these researchers I'm certain you will see no contradiction, unless it lies in the terminology of these various groups or individuals! I think it all stems from our archaic idea of what the word "ether" or "etheria" means. Upon hearing these words we imme-

diately think of "nothingness," absence of all except thought, etc. Now we realize that space and ether are one and the same thing, and all of us, whether on earth or some other world are inhabitants or occupants of this medium! Vibrations here or there may be different, but all beings are "solid" when in their own environment.

As I said some weeks ago in my open letter to all "saucer" investigators: **LET'S FORGET DIFFERENCES** (which really don't exist) **AND WORK TOGETHER FOR ALL MEN EVERYWHERE!**

Yes, scientific and theological dogma will take a "death blow," but science itself and the belief in a Creator will go on to greater revelations in the "Golden Dawn." May our Infinite Father guide us always, and may we stand in His Light!

DOWN TO EARTH

This editor was privileged to hear a lecture and full description by Mr. Bethurum, Redondo Beach, California, of all his eleven contacts with the Planet Clarion, Lady Captain and her crew of thirty-two men. Mr. Bethurum also saw the lady on the street in Las Vegas and again with a member of her crew in a cafe. To date, Mr. Bethurum gives the best actual "down to earth" contact in our density with the outer space visitors.

Mr. O. B. LaVoie, Ornamental Iron Specialist, and close friend of Mr. Bethurum was with him some time ago when contact was attempted with the Visitors from the planet Clarion, from beyond the moon.

There were other friends in the party. Evidently, Aura Rhanes, the lady captain, did not wish to meet a large group, as the space scout ship was seen streaking across the sky, but it did not land at that time.

COSMIC FRIENDS AND WHY NOT?

By George Louis Pafort
Vero Beach, Florida

Insistent stories of eerie objects streaking across the skies of the world during the last four years have kept the minds of mankind in states of wonderment. There has, no doubt, been much worrying. Many too, have merely smirked over the strange reports and tales. Some indeed, apathetically, are unconcerned. These objects have been designated as "chromium hubcaps," "flying washtubs" and "whirling doughnuts." Most aptly, they are referred to as "flying saucers."

Just what are these flying objects, and do they have reality? Let us pursue the question by considering "Conclusion: Unknown," which is the report of the Air Technical Intelligence Center. This Center is at Wright-Patterson Field, Dayton, Ohio. The United States Air Force employs scientists and has this Center maintained by experts, who in the know-how and why, are in a super-class. They are supposed to know everything about objects that fly.

The A. T. I. C. has analyzed some 2000 reports received through military channels of saucer sightings. Over 50% of these reports have had reasonable explanation. Around 15% of the data submitted was found to be insufficient to make valuations. A remaining 15% or about 300 reports constitute the A. T. I. C.'s open verdict: "Unsolved," or as otherwise stated: "Conclusion: Unknown."

Is there anything so astounding about all this? There should be, if one keeps in mind that these reports are "official" and are confirmed by high ranking officers and men of authority in the U. S. Air Force. "Conclusion: Unknown" can only mean that of certain 300 specific reports analyzed by these scientists and experts, they were only to be left floundering in a sea of bewilderment. After

laying the subject open to every possible search thinkable by these men of authority, they have come to no other conclusion than: "Unknown."

Now the remarkable thing about this conclusion is that it definitely verifies the existence of strange flying objects. Their conclusion admits the manifestation of them. Their report: "Unknown" refers to them.

On the other hand, there are responsible unofficial authorities, like Maj. Donald E. Keyhoe, U. S. Marine Corps, Retired, whose opinions can be considered of value. Maj. Keyhoe is the author of a book, "The Flying Saucers Are Real," published in 1952. His second book, "Flying Saucers From Outer Space," is just off the press. The factual items stated can there be obtained. By his own statement this investigator is convinced that the saucers are real and interplanetary.

That the flying saucers are real and interplanetary is the conviction of many other honest minds, and not only highly intelligent, but persons of reliability and recognized integrity. Their positive conviction is that the space ship occurrences are supernal. To them enough evidence prevails to make the claim good that interplanetary communication is established.

How tremendous the significance and the valuation this is in relation to our lives and times goes beyond saying. Yet are we not face to face with phenomena that is far more awesomely astounding than anything brought to the attention of mankind before? Other wonders of the world, including the famous "seven," become far less marvelous.

Even the findings of atomic power in our modern age become less important.

The realization of the fact and manifestation of interplanetary communication by means of space ships or objects, gives man the story of the century, yea, very likely, the greatest in the annals of all time. The space ships are now an event. From various calm and sober sources have come

accounts that give the gravest confirmation that the *supreme exploit of the ages* has been achieved. They tell the world that interspatial obstacles have been surmounted by intelligent beings of another sphere, who have begun to form liaisons with our own world across vast spaceless sky.

Before us we have matter, whatever substance it may consist of, functioning in new and startling revelations. Mankind can but trust that it will function progressively for its betterment, event on event.

Surely, we can accept by now that we are being watched and visited by inhabitants of another planet. For the present what matters it what that planet is. But it is absolutely reasonable and important that mankind acknowledge that these saucer people are of a friendly nature. They are not to be considered enemies armed with all diabolical gadgets in the way of death-ray guns and other ghastly weapons of destruction. These ideas are but the figments of the scientific-fiction writers. These Saucer folk should be accepted as just friends from another world, possessing intelligence far greater than inhabitants of earth. Accept them so, and why not?

Though the question of space ship existence revolves around "Conclusion: Unknown" in the minds of some authorities, can we not, ourselves, humbly conclude by the very fact of their existence and occurrence, that we are living in the greatest period of time for which the peoples of the world could be hopeful! So hope for much good, and be strong.

"He hath said to his brethren: Lo we do miracles unto ourselves. the sky showeth wonders. the earth hath a magic, we are divine in our office whereof earth is improved and life is turned wonderful."—*Golden Scripts* 14:13.

A FLYING SAUCER IN BUENOS AIRES

(This letter was sent to Dr. Raymond Piper of Syracuse University. He forwarded it to the Editor.)

"There must be something of Magic White in Diogenes' lantern, for that reason I take the liberty of sending to this intelligent, interesting philosopher and writer the veridic account of how and when I actually saw a Flying Saucer. Whether there were specks of dust or red corpuscles in my eyes or a suppressed sex-urge I do not know. There might have been a combination of all three, how can one tell?

"About 6:30 p. m. on December 11, 1951, our planet was swiftly turning against the sun, the sky calm blue and very transparent, when I heard my Spanish maid call desperately from the terrace, 'Señora, come, come the moon is moving!' Unable to grasp her meaning I rushed out, and was just in time to see a rare and fascinating sight.

"There appeared to be a new moon moving very, very slowly from north to south. when all of a sudden it turned over and a big luminous disk came into view, bluish-white in the center surrounded by an infra-red rim. It hovered for a few seconds, then turned to an angle of about 60 degrees, and vanished at an enormous speed towards the south.

"I too believe in interplanetary travel and white magic and many kinds of 'Beams.' May your own special one continue to shine.

"With respect and admiration, yours truly

Violet Warwick Carelli."

Buenos Aires, Argentina,
Jan. 4, 1954.

"The world is at the crossroads; it awaiteth a leadership; man hath stumbled and blundered; now his leadership pursueth him."—*Golden Scripts* 14:34.

DIVINE LOVE AND UNIVERSAL LANGUAGE

By Raymond F. Piper, Ph.D., Syracuse University.

[Dr. Raymond F. Piper is professor of Philosophy in Syracuse University, specializing in philosophy of religion and aesthetics. He came here in 1917 and will retire next summer. He is author of half of each of two books: THE FIELDS AND METHODS OF KNOWLEDGE, 1929, with Paul W. Ward, and PREFACE TO PHILOSOPHY: BOOK OF READINGS, with Tolley and Hoople. He has published about thirty articles, mostly on religious subjects. In 1932-33 he spent seventeen months in the Orient in the study of religions and philosophy. In his spare time during the last seven years he has been searching around the world by mail for the best recent examples (done since 1918) of religious and metaphysical art for a comprehensive book on COSMIC ART or ART AND GOD. He has on hand about 2,000 photos from sixty countries, and is now trying to select the best 400. Dr. Piper says, "I am eager, however, to know of any such works of notable effectiveness, done in modern style, which might be better than any I now have. I shall include a few works done under psychic control. I shall be grateful for artists' addresses."]

The communication of Divine love to human minds evidently depends upon the existence of three favorable factors: (1) A *transmitter*, God, master, prophet, or other love-filled person; (2) a willing, ready, responsive *recipient*; and (3) an effective physical or spiritual *vehicle* or means of transmission.

The third condition seems best fulfilled in some kind of universal language. So far as I know, there are seven possibilities for such a language:

(1) The language of gesture, meaningful and intelligible among birds, animals, and human beings, and capable of high development, as in the marvels of the dances of India.

(2) The possible future use of one natural language, such as English, French, or Chinese (used by more people than any other).

(3) A possible renaissance of "the mother universal language" known as Senzar, and also called Deva-Bhashya.

(4) The ancient Sanskrit represented by the writings left by the late Mrs. Catharine Adair Robinson of Palo Alto, Calif. She held that a similar language had been used in the first or ancient Atlantis.

(5) Interlingua, the best of about 350 proposed constructed universal auxiliary language.

(6) Some universal language used on and among other planets.

(7) Telepathic "language," the transfer of meanings directly from mind to mind without the use of ordinary auditory or visual verbal signs. Such is the mode of communication between God and ecstatic mystics and yogis, as well as between spiritual beings and highly developed psychic mediums.

These seven possible languages would be reduced to six if numbers three and four turned out to be similar, and they would be reduced to five if, in addition, six and seven were found to be alike. Some comments on several of these proposals need to be made, according to number.

(1) On Nov. 20, 1952, Mr. George Adamski reports that he encountered a man who had come by a flying saucer from another planet. This memorable event occurred in the desert about ten miles from Desert Center, Arizona, and is described in Part 2 of the book called *Flying Saucers Have Landed*, by Desmond Leslie and George Adamski, published in 1953 by The British Book Center, 420 W. 45th Street, New York City 36. Mr. Adamski immediately found that he and his visitor had no common natural language, although the stranger "was very expert in mental telepathy." He recounts the fascinating way in which, within an hour, he gradually established communication by developing gestures and telepathic communication of meanings.

(2) The setting up of one of the living natural languages as a universal language has so many momentous objections that it is unlikely to come to pass. Natural languages are too irregular in syntax and too stiff and inflexible in usage.

Further, every such language is tightly and painfully involved in national prejudices and animosities. Also, persons who learned such a language in infancy would have an unfair psychological advantage over those who learned it as adults. Everybody should start on the same level, learn one auxiliary language as they learn the multiplication table, as well as acquire skill in their historical or cultural language.

(3) A remarkable account of Senzar is found in the pages of the book, *THE LOTUS FIRE*, by George S. Arundale, published in 1939 by The Theosophical Publishing Co., Adyar, Madras, India. He declares that this tongue was "universal in the olden days before the confusion of the 'Tower of Babel.' . . . It was the 'Mother-Sanskrit' reported to have been brought from Venus." He thinks that it entered largely into the making of the Egyptian hieratic language. His description of the latter forms suggests some similarity to the script of the Robinson variety, in this respect that in both, forms have the nature of ideographs which suggest the meanings functionally, by patterns, after the manner of some Chinese characters, and no spoken sounds are necessary. He believes that these characters could be understood by spiritual persons or adepts of any spoken language. He affirms that the ideograms of this "ancient sacerdotal language" . . . were "common and international property among initiated mystics and their followers, . . . which every Initiate can recognize and translate into the lower languages of the intellectual world."

(4) A sample of the Robinson variety of ancient Sanskrit is included below. Its translation into English occupies nearly a page of double spacing. It is distinguished by the extensive use of spirals, and it is beautiful to behold. She left the following interpretation of the sign for "the shrine," which is located in the next to the last line, third character from the right: the base "was of carved teakwood or ebony similar to the stands used under Chinese bowls. The family shrine was a small replica of the one on the High Altar in

"A Letter of Unfoldment" in Ancient Sanskrit, as recorded from memory by the late Mrs. Catharine Adair Robinson of Palo Alto, California.

the Temple. A family bowl was represented thus [by a curve or arc resting on the stand], but the most sacred Golden Bowl was as one lighted by candles within it as was done on some High Occasions, to luster its beauty. The Guiding Spirit hovers over."

(5) Interlingua is the remarkable product of about twenty-five years of intensive and broad research by dozens of scholars co-ordinated by the International Auxiliary Language Association, represented at the present time by Science Service, Interlingua Division, 80 E. 11th St., New York City 3. This Service has published a superb pamphlet called "The Case for Interlingua" by Alexander Gode, which gives the history of the problem, the inadequacy of other solutions such as Esperanto, and the foundations and philosophy of Interlingua.

"The major theorems with which Interlingua stands or falls are the following:

"1. The languages of the world are not reducible to one universal pattern. There is no 'absolute' linguistic pattern, and every language—natural or constructed—falls of necessity into one of many possible specialized molds.

"2. The global internationalism of the twentieth century is propelled by ideological forces of occidental origin. These are conceivable only in occidental thought (and speech) molds; they are so conceived by all participants regardless of what their accidental native language background may be.

"3. The languages of the Occident are—by origin or in consequence of historical influences or both—so closely akin to one another that it is both sound and illuminating to conceive of them as variants of one type language which has fittingly been called Standard Average European (SAE).

"4. The natural and only possible supranational language of science—which, in the most comprehensive sense, coincides with the forces of contemporary internationalism—is Standard Average European. Of this Interlingua is to date the most satisfactory formulation. Eventual improvements of it, such as are characteristic of all living languages, will come in the form of organic developments through usage."
—From "*The Case for Interlingua.*"

Interlingua has aimed at practicality from the first. Although I have not studied this language, I can read approximately ninety per cent of material in this tongue. I read the first page I encountered completely with the exception of one word, the word for Tuesday. A great and sound universal language is now in existence. Its *Interlingua-English Dictionary* has been published. The one problem left is the tremendous one of getting the nations of the world and United Nations to adopt it and to get it established as one of the indispensable elements in the public schools of all peoples.

(6-7) In her remarkable book called NATIVES OF ETERNITY, published in 1944 by J. F. Rowny Press, Santa Barbara, Calif., the author, Flower E. Newhouse, re-

ports various astral journeys to other planets. On pages 82 and 86 she declares, "As we observed the Venusians, the woman made some remark to her son and lo, I noticed they did not use their vocal organs, but telepathy for conversation, so I could comprehend them. . . . In the presence of the Venusians it did not seem strange to communicate with each other entirely by thought."

DOWN TO EARTH

(Continued from Page 9)

Mr. LaVoie, at a recent Los Feliz Lions meeting, showed blueprints of the inside and outside of the space craft. He said that according to Mr. Bethurum the space craft moves through the air surrounded by an electric field which nullifies the force of gravity and thereby enables it to maneuver as no manmade aircraft has ever been able to navigate.

Here I would like to add that we, hereof this earth, are capable of traveling far out into space in our physical bodies in manmade aircraft. Just as surely the other physical beings of another density are capable of arriving here from millions and millions of miles away, from space outside of our planet, and from out of our Solar System. So, we too, have this dormant possibility, that is, if we make peace within our selves first. All traces of greed and lust and self gain must be erased from our consciousness. The higher intelligent beings will not allow a larger degree of consciousness to interfere with the Universal Plan of Progression. This is very understandable. If our home is threatened with termites, we do something about it. So will the higher and wiser ones, if, in our ignorance, we go on blindly towards destroying our home, physically, mentally and spiritually. It, evidently, is of utmost importance that we do not destroy our present home, this planet earth. There is much for us to learn while we are temporarily stationed here on this planet Earth-Shan. (I understand that *Shan* means "Afflicted One.")

FROM "DIE NATUERLICHE SONNE"

[This is a translation from "Die Natuerliche Sonne" (The Natural Sun,) Chapters 5, 6 and 25. This was especially translated for Interplanetary News Digest by Ella Elbert of Los Angeles, California.]

This is one of the many New Revelations, which have been received from the Father of Light by Jakob Lorber, of Graz, Austria, in the years 1840 to 1864.

The planet Mercury and the planet Venus are identically alike and most of the inhabitants of the planet Mercury as well as the inhabitants of the planet Venus are highly intellectual people. The only difference between them is that the inhabitants of Mercury want to acquire their knowledge by personal actual experience from which they draw their own conclusions. Therefore, do these people, as well as later on as spirits, love to travel, because, they want to see all of creation with their own eyes in order to get their information first hand. When in the spirit world, they want to convince themselves whether their conclusions and opinions which they have formed during their physical life on that planet were correct and have not deceived them. These are the main characteristics of the inhabitants of the planet Mercury.

Now if you want to study the inhabitants of Venus, for the most part they are just like the inhabitants of the planet Mercury, only they begin their studies of wisdom, where the people of Mercury end them. Their final test is that phase with which the people of Mercury begin their thinking before they have any actual experience and then they want to see. But the people of Venus want to see and observe first and then, after they have had their experience, they do their thinking.

Another booklet is the story of MALLONA. This is the name of a planet, which belonged to our solar system and which was destroyed by high-powered explosives by a greedy and unwise ruler. Fragments of Mallona are still travelling in the same path in which the planet itself used to rotate. These fragments, on which is neither any life nor vegetation any more, are called the Asteroids or Planetoids by the astronomers. The continents of this planet were formed very similar to those of our planet, the Earth. [*Mallona* is by Leopold Engel.]

WILLIAMSON AND BAILEY IN LOS ANGELES

On Friday evening, March 26th, at the New Age Book Center, 1546 Glendale Blvd., Los Angeles, a group of people interested in flying saucers and the people from outer space had the unusual privilege of hearing both George Hunt Williamson and Alfred C. Bailey, authors of "The Saucers Speak," recently published by the New Age Publishing Co.

Much information not covered in the book was disclosed for the first time, such as governmental confirmation of actual saucer contacts by radiotelegraphy and scientific discoveries revealed by the saucer messengers.

Several electronic engineers and technicians in the Los Angeles area are forming a group to establish contact with the saucers by radiotelegraphy and radar.

Mr. Williamson is now compiling all his latest information for a book, soon to be published. This will include universal symbology and data on the solar mother tongue.

WILLIAMSON ON T. V.

As this magazine goes to press Mr. Williamson is scheduled to appear on television, Tuesday, March 30th, at 6 p. m. on Larry Harmon's "Commander Comet" show as a guest speaker. Please note new time and station: Channel 13 at 6 p. m

SPACE SHIP LANDS IN CELERY FIELD

This report was sent in to the editor by an eighty years young lady from Kentucky. Here is her report:

"Way back in October of 1928, one of the Flying Saucers landed only 50 feet from me in my celery field in Wisconsin. Seven small people emerged and ran into the woods. But, I examined the "Ship" very thoroughly, inside and out. It measured 99 feet in length, and 30 feet in diameter. It had 14 portholes on each side. A small door near the front end. No mechanism of any kind for guiding or power. There were seven bucket seats and a great quantity of food near the front part of the ship. This food was very similar in size, shape and texture to the wafers we buy and feed to our goldfish. And it tasted delightful."

The lady further states that the General Electric Company hauled the Space Ship to their laboratory and she was told that the elements composing its structure definitely did not belong to this earth. Then, complete silence was maintained and no mention of the landing was given out to the public.

The little men were not seen or heard of again. Just completely vanished.

They were dressed in one-piece, neat-fitting coverall suits; light blue-gray color. Head caps almost exactly in shape and fit like the aviator caps of World War I, the kind that fold flat and can be put into a pocket. Their shoes were white and soft like moccasins.

The lady concludes that there were at least a dozen landings of which she has positive knowledge, between the years of 1919 and 1930. These other landings of Space Ships were in northern Wisconsin and northern Illinois. And every saucer had five to seven little people in it.

"And the living creatures ran and returned as the appearance of a flash of lightning."—*Ezek. 1:14.*

SPACE CRAFT SIGHTINGS AND NEWS

On January 13th, there was a report of flashes in the sky over the state of Ohio. The flashes and meteor-like lights were seen in several parts of the state.

And for those who have never as yet seen a Space Ship or Flying Saucer, be of good cheer for, sooner or later, you will! Clarence M. Koehler of Baltimore, Md., writes that he had never experienced the Saucer phenomena until lately. About six weeks ago, a dirigible-like ship passed over his home about 11:15 p. m. It had no undercarriage or back fin.

February 2, reports came in about a huge Space Ship seen somewhere in New York state, but nothing appeared about in our West Coast newspapers.

Space Ships fly over Hollywood also. Friends of the editor reported seeing several on February first, early in the morning.

From the March issue of the "Saucers" news report, published by Max Miller, P. O. Box 34, Preuss Station, Los Angeles 35, Calif., [Price, 4 issues for \$1.00], are these interesting sightings:

Streamers of flying tinfoil descended on the greater Kansas City area Thursday night, December 10th, posing quite a mystery.

The tinfoil was first noted when it fell on power lines, causing a series of suburban power failures.

Air Force officials at Forbes Air Base, Topeka, Kansas, and the Central Air Defense Force here denied knowledge of the strips, which ranged from a foot to 200 feet in length and about half an inch wide.

H. Percy Wilkins, a British astronomer, has observed a "Remarkable Bridge" 20 miles long and a mile or two wide,

that can be seen at the 5,000 foot level in the mountains on the moon.

The astronomer said the "Gigantic Arch" is undoubtedly natural although it "looks like an engineering job."

"It is absolutely regular," he said. "It casts a shadow under a low sun, and you can see the sunlight streaming in beneath it."

As to what the huge white-skinned, but hairy and loin-clothed beings seen in the Malaya jungle are, and according to Geoge H. Williamson in Valor, issue of Jan. 23rd, 1954, [Box 192, Noblesville, Indiana, weekly, price \$5.00 per year], they are possibly a "hairy race" that live underground in our earth, and that Cosmic changes are bringing them to the surface. Also, there are the "abominable snowmen" seen in the mountainous areas of Canada, Chile, and on Mt. Everest, who have caused considerable speculation as to where they come from.

Flying Saucers recently have received much publicity here and in Hollywood.

On January 17, 1954, on Paul Coates' "Confidential File" KTTV program at 10:30 p. m. Mr. and Mrs. George Van Tassel made a personal appearance and Mr. Van Tassel gave a splendid account of our Interplanetary Friends with whom he communes. He stated that on August 3rd, 1953, at 2 a. m. during full moonlight, a Space Ship made a landing near "the Rock" and that he was invited to go within the ship.

An interesting fact, Mr. Van Tassel mentioned, was in regard to the Space Elevator which, he said, is holes in space. Space People stand on this and go up or down. The levels are marked with colors and weight is increased to go down and decreased to go up.

The "Electronic Dopic" is not a Space Visitor, but was invented by physicist G. M. Giannin of Pasadena, Calif., of this planet Earth-Shan. The News item appeared in the Daily News of Los Angeles.

The "Dopic" is an electronic brain which has the I. Q. of a high grade moron, the article states.

"Dopic" is a good indication of the changes already taking place here and now. Machines will work for men, rather than men be slaves to the machines they create. But man must learn how to spend his extra time in the advancing New Age period for soul-expression in the Creator's Light.

From the "Clips and Quotes, and Comments," Borderland Sciences Research Associates, Director Meade Layne, 3524 Adams Ave., San Diego, California, is the following information:

Yada: "The present visitation of the aeroforms is, as you know, not a new event in the earth's history. Always there has been a coming and going of these people and their ships, and always there have been those who held permanent stations near your planet. The number mentioned by Dr. Williamson or his communicators, ten to twelve millions, is not excessive. Innumerable are the worlds, and the beings who inhabit them."

(*Question*): "Those enormous space-ships described in 'Oahspe'—from what you say, we should take them quite literally?"

Yada: "It is rather foolish to refer to them as ships or craft. They are really celestial bodies, dark stars or worlds, often capable of carrying as many millions as your own planet does, or more. But these bodies are guided and controlled by mental energy—that is, by the free energy of space which *mind* can utilize. Man on your earth will learn—perhaps soon, in a small degree—that this can be

done—that all space is but an infinite reservoir of energy—free energy. When you can tap this you will not need power sources, or fuel, or motors or engines for propulsion—just as these visiting craft do not need them now. Nor is there any necessary limit to the speed of such space ships, though, as is done in your earth-aura, they can move and exist in any space-time scheme desired. The great defect of our science is the inability to grasp the nature of space; it equates with the ethers and with energy. The control of this energy is equivalent to the control of Sun-Energy. All of the Suns are creators and dischargers of energy. . . .”

From issue number 7 of Proceedings of the College of Universal Wisdom, George W. Van Tassel, Director; P. O. Box 419, Yucca Valley, California, donations accepted for improvement of publication and for building fund of the college, are the following questions and answers:

Q.: “Have any of the people of the Earth been taken for rides?”

A.: There have been several hundred given rides for a specific reason.”

Q.: “Do you have two classes of ships such as material and etherian?”

A.: “We have 62 various types of craft in your atmosphere from among our 369 models and sizes. Our Confederation does not make any distinction between our people from any life level or system.”

Q.: “Where do the many space ships we see come from?”

A.: “Most of those observed in your atmosphere have come from your Moon, Mars and Venus. We have had a few ships from other solar systems observing Earth also.”

Q.: “What are the various dimensions of your ships?”

A.: “We have remote controlled craft in your dimensions two feet in diameter. We have among some of our systems

craft of the disk type 1500 feet in diameter and of the spherical type 4500 feet in diameter. We have in the torpedo type, craft three miles in diameter and 16 miles long. Our space station orbiting around the planet called Mars is 10 miles in diameter. Our control station for the first four densities, as you have been told, is 14,000 miles in diameter; double the size of your planet. It does not orbit around anything. It follows the same lines of force that your Sun follows.”

SPACECRAFT CONVENTION

George Van Tassel, operator of Giant Rock airport, has set April 4, 1954 as the date for a one-day Spacecraft Convention. Noted authorities on spacecraft are expected to be present.

There will be no admission fee, but visitors are asked to bring their own food and refreshments.

It is hoped that an actual spacecraft may land at the airport and be witnessed by all those present.

LATEST RUMORS

Rumor has it that a huge Space Ship from Venus has landed at Muroc Air Base. It is reported to be at North Field, Muroc, California. It is said to be guarded by our government with the Space Being standing by, while our scientists and other so-called experts examine the ship.

Report also has it that the Space Visitors from Clarion, (Mr. Bethurum's friends), landed their ship at Palomar observatory. They also allowed our experts to go through the ship.

Before taking off to their native planet, they invited one earth being to return with them. Strange as it seems, no one volunteered.

LATEST SAUCER NEWS FROM ENGLAND

As we go to press, "Flying Saucer News," the official journal of the Flying Saucer Club of Great Britain arrived, chuck full of saucer sightings, landings and comments.

Although Interplanetary News Digest deals more intimately with the saucers and their passengers, it is most refreshing to know of the many and numerous sightings all over the world. This editor is most grateful for the F. S. News from England. (The Flying Saucer News, 42 Rotbury Road, Hove 3, Sussex, England. Secretary, Richard Hughes. To American friends, 6 issues \$1.00, by air, \$2.00.)

From page 19 of the current issue, it states that Frank Edward, well known American news commentator mentioned in recent broadcasts that an unidentified object is under observation by scientists at a West Coast military field. This checks with the latest rumor printed elsewhere in this Digest in regard to a spaceship being at Muroc, Calif.

Also, Mr. Edwards reported a huge circular disc which hovered over Bermuda during the first week of December, 1953. I might add, also, that rumor has it, that a Space Being appeared at the Big Three Conference at that time and gave a great speech on a very timely subject!

Also, during December, another interesting item by Mr. Edwards: Saucers were sighted over Quantico Marine Base, Virginia. The saucers came over this base for four successive nights, and flew at high altitudes and also at tree-top level. The marines said the saucers were performing controlled maneuvers, but on the fourth night one of them landed about half a mile from the base. A group of marines who were near the area where the saucer was landing said it only stayed on the ground a few seconds, and then took off and was out of sight in a matter of seconds. They described it as being "round, with red pulsating lights."

Sorry, plenty of space out there, but no more space in this issue of Interplanetary News Digest. Thank you, Richard Hughes, of F. S. News from England.

PROJECT MAGNET

Canadian scientists are preparing the world's first "Flying Saucer Sighting Station" at Shirley's Bay, ten miles from Ottawa. The project is being backed by the Canadian Government's Department of Transport, in co-operation with the Defence Research Board, and is nearing completion. It is known as "Project Magnet."

Those manning the station are directed by the Department of Transport to "do what you can to prove or disprove the existence of Flying Saucers." Mr. Wilbert Smith, a D of T engineer, is responsible for installing the electronic equipment—several pieces of which are secret—and the station will work all around the clock.

The new station is regarded as proof that Canada's leading scientists are taking the matter seriously enough to provide new equipment and personnel for this purpose.

Rumour has it that the equipment includes instruments for measuring changes in *mass* and *gravity*. However, one of our members tells us that a scientist friend of his has stated that the idea of such instruments is "all bunk"—so we don't know quite what to believe—which, of course, is far from unusual. . . .

The Transport Department's telecommunication expert believes that there is a 60% *probability* of the Saucers being alien vehicles from outer space.

Every eighteen months the earth and Mars reach their closest proximity, and this will again occur next summer, when the Project is expected to be in full operation.

It has been noticed that the flying saucer reports reach a maximum coinciding with this period of proximity.

(The above is, in the main, taken from "Reuter" reports.)

LETTERS TO THE EDITOR

Interplanetary News Digest Editor,
P. O. Box 426, Joshua Tree, Calif.

Dear Miss Johnston:

Greetings. It is splendid that you stress the great opportunity need of realizing one's Christ Within! How needful it is that mankind be brought back on the lines of true thinking and delivered from error thinking.

God speed your effort with Peace, Power and Plenty.
Sincerely yours, G. L. P., Vero Beach, Florida.

Dear Editor:

Let's put spatial people to a few simple tests by which they may be evaluated and their true worth revealed:

1. Is *self* their chief consideration? Are they out to *conquer* or get something from man? Are they to "get" or "give"?
2. Weigh the Object and End aimed at. What is their Purpose? What is accomplished?
3. How do they grade in the fourth dimensional mighties?

O Man, Awake. Arouse!

"Look matters in the face!" Go to the Root of the matter and be thou a God thyself in discerning that that meliorate the condition of man.

"Welcome Etherians!" who live in "Ethe" in spiritual bodies. More beautiful, made of finer stuff and far stronger. (A touch of an ethereal hand on a corporeal arm makes a big man wince.)

Grand, God-like men and women from other worlds! And like the God of Kosmon, who comes to us like a Brother with tens of thousands of years' experience! So they come to Raise Man Up to full Spiritual Adulthood.

Credit to whom credit is due: The CREATOR OF WORLDS WITHOUT NUMBER.

Yours in the Light of Kosmon,

V. L. S., Massillon, Ohio.

A PRAYER FOR THE NATIONS

God give us light, a fierce, revealing radiance
To put to shame the vaulted candle flame
Of matter goaded by man into destructive
Incandescence; light to pierce the dreadful darkness
Of our understanding. Blinded by the lurid glare of war,
Confused by hate, we grope among the ruins
Of our shattered world, and know no peace.
And hope recedes as we approach, driven
From us by incendiary men and our own want of faith.
Give us light to reveal us as we stand,
Naked among our hates and lusts for power and advantage.
Give us a beacon light toward humanity.
Aye, Lord, we ask no greater miracle than this,
Humility; humility before the awful truth
Of our failure and ineptitude.
Then give us courage to face this light,
And face the circumstances of our failure,
That through the hate-engendered tragedies
Of our yet undisclosed destiny
We might retrieve our pride as Sons of God,
And from the experience of our degradation
And our suffering, learn to practice Love
In our relationships, and set examples of nobility
Of conduct for the generations yet unborn.
God give us light.

Eric C. H. Olson.

"The Goodly Company saith unto me: Lo, the Father hath instructed us, we do go on before you, we show you paths to peace; achievement cometh to you, we expound those achievements; raise up a standard to the Lord God and follow it sweetly to a triumph over madness; our footprints vanish only on pinnacles of light."—*Golden Scripts*, chapter 14, verse 37.

OTHER NEW AGE PUBLICATIONS

I RODE A FLYING SAUCER

By George Van Tassel.

Price \$1.00

The strange story of the author and his desert retreat, and some of the extraordinary messages from outer space.

THE SAUCERS SPEAK

By George H. Williamson and Alfred C. Bailey Price \$2.00

A Documentary Report of Interstellar Communication by Radiotelegraphy. Contains startling information and convincing proof that people from Other Worlds are with us. The amazing experience of Dr. Williamson and associates is fully described together with a transcript of communications received and the affidavit of the witnesses present.

ABOARD A FLYING SAUCER

By Truman Bethurum.

Price \$3.00

The outstanding news story of 1953. Mr. Bethurum, completely taken by surprise by men from Outer Space was ushered into a Flying Saucer, met the woman commander of the ship, describes minute details about the furnishings, dress, manners, speech and life on the planet "Clarion." No one who knows Mr. Bethurum and hears his story doubts his veracity and sincerity.

STAR GUESTS

By W. D. Pelley.

Price \$4.00

A Soulcraft publication revealing mounting evidence that life on this planet may have come from another heavenly system. Explains some of the great arcane mysteries of the Cosmos and gives much information about life after death. You need this knowledge to help you understand today's Drama of the Skies.
