EDITORIAL:

"First Flying Saucer Convention"

YOU ARE PROBABLY WELL aware by now of the World's First Flying Saucer Convention which was held by Flying Saucers International last August 16th to 18th at the Hollywood Hotel, Hollywood, California. It has been agreed that it was a remarkable success with impressive crowds. Best estimates at present give the approximate total attendance at 1500. Jeron King Criswell, one of the speakers, announced that 2000 people had been turned away Monday night (the 17th) alone.

The speakers included: Dr. Hardin D. Walsh (Dean of Science, Sequoia University), Orfeo Angelucci (author: "Saucers First Contact Revealed"), Dr. Jeron King Criswell (syndicated columnist: "Criswell Predicts"), Arthur Louis Jocuel II (author: "The Challenge of Space"), Silas Newton (geo-physicist; included in the book "Behind the Flying Saucers"), Frank Scully (author: "Behind the Flying Saucers"), Truman Bethurum (author: "I Was Inside a Flying Saucer" - "SAUCERS" Vol. I, No. 2), George W. Van Tassel (author: "I Rode a Flying Saucer"), and George Adamski (author: "Pioneers of Space, co-author: "Flying Saucers Have Landed"), and many more speakers too numerous to mention.

A WONDERFUL ART EXHIBIT was displayed by Mel Hunter, noted science-fiction artist with many magazine covers to his credit. Much of his time was spent in the company of Wendayne and Forrest J. Ackerman (affectionately known as "Mr. & Mrs. Science-Fiction").

People came from as far away as London to attend the convention. The famous Hollywood Hotel claims this convention broke all previous records. Letters were on display from these personages in regard to the convention: The Vice-President of the United States, The Secretary of Defense, The mayor of Los Angeles; and the following news commentators: Frank Edwards, Lowell Thomas, and Walter Winchell, among others.

AT THE LAST MEETING (the night of August 18th) of the convention a voice vote was taken to petition the government to release all information on the so-called flying saucers which would not be detrimental to national security. A telegram was sent to President Eisenhower and the following letter was received in reply:

(August 31, 1953)

"Your recent inquiry to The President of the United States has been referred to the Department of the Air Force for reply.

"I am sending you a report so that you will have a full picture of our activities in this matter to date.

"JOE W. KELLY
Brigadier General, USAF
Director, Legislative Liaison"

ALL IN ALL THE CONVENTION went fine and we wish to thank the many friends who were kind enough to speak and participate at these meetings. We are sorry we cannot list all of their names here. We wish also to give special thanks to Andrew Anderson the convention's very capable moderator; and to Orfeo Angelucci and Jeron King Criswell for acting as moderators.

SUMMARY OF LECTURE GIVEN AT CONVENTION*

By FRANK SCULLY

I WISH I COULD SAY it gives me great pleasure to look upon your smiling faces but in all truth I can't say this because speaking gives me very little pleasure and besides I am here for a grim and moral purpose: To tell you what progress has been made in solving the mystery of strange objects in our skies since I wrote "Behind the Flying Saucers" in 1950.

Previous speakers have said that in various translations, syndications and such this book has been read by 10 million people. Frankly that's the way authors should be appreciated. They say children should be seen and not heard, but authors should be neither seen nor heard; they should be read. Obviously if people get it through their ears they are not likely to read. If the author is good on his feet, that satisfies them. If he can't think very well on his feet, they say, "That dope, how could he write a book?"

BUT AT LEAST I CAN bring a measure of comfort to those who shared our views in 1950 and doubted that the Pentagonians were telling all they knew. At that time the Pentagonian party line classified all believers in flying saucers as victims of mass hallucinations, observers of natural objects which they mistook for flying saucers, or perpetrators of hoaxes.

But today the Air Force has retreated considerable from that high and lofty position. They admit now they made a terrible blunder of their public relations job when they first scoffed at what was advanced in "Behind the Flying Saucers." They admit now, unofficially at least, that the objects are interplanetary and that their radarscopes have shown them things which presumably they never knew until now.

When I finished the first phase of my research in this vast and mysterious subject I said they were stuck with 34 sightings which they could not explain away. Today they have more than 3000 sightings in their files and admit they cannot laugh off 25% of them. That would come to about 750 sightings they are stuck with.

I asked their spokesman if this 25% composed chiefly the reports of their own pilots, technical advisors and such? The spokesman admitted they were.

SO THIS REPRESENTS A TREMENDOUS gain for our side in the Saucerian-Pentagonian controversy and the end is by no means in sight yet.

(Cont.)

* Sunday night, August 16th, 1953, Hollywood Hotel.

SUMMARY OF CONVENTION LECTURE

I have been gathering new and additional data for three years and don't intend to rush out with a new book merely to satisfy a demand. It may take another year to check down this data and make it absolutely foolproof. As it looks now it will fortify the magnetic theory of their propulsion beyond a shadow of doubt. And if readers thought "Behind the Flying Saucers" amazing they will think the successor astounding.

In conclusion (beautiful words) I want to thank you for inviting me to participate in this first convention and I wish you every success in our common researches.

MY OPINIONS ON FLYING SAUCERS

By Rev. LOUIS A. GARDNER

WE HAVE OFTEN HEARD WORLD leaders, statesmen, politicians, writers, journalists and television and radio commentators refer to Joseph Stalin, of the Soviet Union, as an "enigma inside a riddle wrapped up in a mystery" because of his mysterious nature and past finding out. This description is certainly applicable to the mystery surrounding the "Flying Saucers" that have been seen by scores of competent observers in mass flight in the skies over Mexico and the length and breadth of the U.S.A. since 1947.

While in the United States Navy stationed in Japan, under the command of General MacArthur, I saw first hand what the Model 'T' A-bomb did to the city of Nagasaki, Japan. I made up my mind then and there that anything the human brain was capable of thinking up is possible.

I now believe flying saucers are more than a remote possibility and could conceivably come from outer space, that is, other worlds such as Mars or Venus, which along with the Sun, Moon and other planets, comprise our solar system.

If these sightings had been made only during the War with Japan, when Japan was sending their deadly balloons across the Pacific to our West Coast, we could lay the flying saucer dilemma to war phobia, optical illusion, or general fear. But when these objects in the sky have been in mass formation and flight almost three years after cessation of hostilities - no wonder the major newspapers, periodicals and magazines have devoted millions of dollars worth of space trying to arrive at a satisfactory explanation of the flying discs.

JULY OF 1952 I WAS preparing a talk dealing with the controversial flying saucers. I was seeking the best scientific knowledge. I thought of Dr. Einstein, but again thought it futile to write such a prominent scientist.

At long last, I have learned that the only sure way to get needed information and material is to go to the very top authority. I could never understand telling some secretary my problem, only to have the secretary answer with a silly grin: "Well he is busy for the day" or "Will be back next week" when you know full well that he is sitting just inside the door. (Cont.)

MY OPINIONS ON FLYING SAUCERS

So I went to the top. I wrote to Prof. Einstein, Advanced Study of Higher Mathematics, Princeton University. July 23rd, '52, I received an air mail letter, on Dr. Einstein's own letter head, and signature, verifying that those people saw something. Of course I regarded it quite an honor and privilege to receive any kind of answer from such a renowned and eminent scientist as Dr. Einstein.

Here are the exact excerpts of the questionnaire I sent Dr. Einstein: "Do they originate in outer space?" "Do they come from other worlds, such as Mars or Venus?" "Do they come from our military rivals?" "Are they the product of our own Air Force experiment?"

HERE IS DR. EINSTEIN'S letter to me, a letter that was printed perhaps in the newspapers of every civilized city and town in the world. Columbia Broadcasting System's television show, "It's News To Me," thought the Einstein letter of such interest that they used it on their entire television hookup, including Los Angeles, California, which was viewed by millions of TV fans. Here is the Professor's thoughts on the subject of flying saucers:

"July 23, 1952

"Dear Sir:

Those people have seen something. What they saw I do not know and I am not curious to know.

"Sincerely yours,

"Albert Einstein

"Mr. Louis A. Gardner
911 West 7th Place
Los Angeles 14, Cal."

AUGUST 1ST, 1952, I WAS walking along Broadway in downtown Los Angeles, with an associate of mine, Miss Frances Coyne, who is associated in the Gardner Evangelistic Crusade. I was telling her about the Einstein letter, and the publicity that the television, radio and newspapers were giving the subject, when I happened to look up at the moon, and near it I saw what appeared to be a huge red ball. I called it to the attention of those on the street. It seemed to linger near the moon and then just move back in the depths of space. I was reluctant to call the press, because of the publicity I got earlier that week, when I asked but didn't get an explanation on the flying saucers from Dr. Einstein. However what I saw was so real, that in about five minutes I called the newspapers to report what I had seen. And sure enough five minutes before my report a young amateur astronomer, Frank Acuna, saw the same object as he was studying the moon through his telescope at the same place at the same time 8:15 p.m.

GEORGE W. VAN TASSEL, author of the book "I Rode a Flying Saucer" (\$1.00), claims to have received the following message from "Ashtar," the saucers' leader on Sept. 6th on convention: "I, speaking for our confederation, do extend grateful appreciation to those whose foresight and development has given them the courage to have a convention among the doubters."

COMMENTS ON THE CONVENTION

By GEORGE ADAMSKI

THE FIRST FLYING SAUCER CONVENTION was excellent proof of the interest in the minds of the people regarding the presence of other world craft moving through our atmosphere. Actually, this event is no more mysterious than our planes moving over Africa, South America, the Arctic, Antarctic or any other country in this world of ours. For can you imagine the amazement and fright which the natives of such countries experienced when the first Earth planes passed over their heads? It must have been even more amazing to them because of the terrific noise that Earth craft make, than the moving of space craft over our heads, for they are silent. But because we may not have a thorough understanding of them, and because we have always been taught that interplanetary travel was impossible because of the great distances between our planet and others, and especially because we have been taught that it was impossible for other humans to live on any of our closest planetary neighbors, we make them out to be very mysterious.

As I said at the Convention and I staunchly maintain, these craft are as mechanical and material as our own airplanes, and the men within them are as mortal beings as we on Earth are. I have seen and talked with these people and they are far more friendly than most Earthlings toward strangers. Nor are they any different than ourselves. In fact, there were several present in the Hollywood Hotel during the Convention and they were not recognized as other than Earth people. I talked with them and they identified themselves to me, although others standing around talking with me and listening to me were not aware that these men and women were from other worlds. That is how nearly they are like us.

BOOK REVIEWS

By MAX B. MILLER

"FLYING SAUCERS HAVE LANDED" by Desmond Leslie and George Adamski (British Book Centre: \$3.50):

This is a rather unusual book to say the least. Desmond Leslie wrote the first part of the book which comprises about two-thirds of the text. He tries to convince the skeptics that flying saucers do exist and he attacks Dr. Menzel and his temperature inversion theories most enthusiastically. This is possibly the first book to come out with the occult side of the discs in the foreground. The following are a few of Leslie's chapters in the book: "The Flying Saucer Museum," "Saucers in Atlantis," and "The First Space Ship on Record" among others. Desmond Leslie has done a remarkable amount of research on the discs which should not go on unnoticed.

THIS PHOTOGRAPH was taken some-time in early 1953 by Manuel Weltman of Venice, Calif., at night with time exposure. Since Mr. Weltman did not see object, he claims he does not know what it could be.

BOOK REVIEWS (Cont.)

George Adamski's portion of the book is world shaking in proportion: it all depends on how you look at it. He claims to have had two contacts with the saucer occupants in 1952. "FLYING SAUCERS HAVE LANDED" contains a number of Adamski's startling photographs of the discs (there are 13 plates in all) including photo-stats of affidavits by six witnesses who claim his meeting with a man from another world on November 20th, 1952, is authentic.

In conclusion it should be pointed out that an excellent book of this type does not come out very often. It should be in the hands of all flying saucer collectors.

* * *

"FLYING SAUCERS FROM OUTER SPACE" by Major Donald E. Keyhoe (Henry Holt & Co.: \$3.00):

Major Keyhoe is well known to all saucer fans for his many articles which have appeared in "TRUE" magazine and his former book, "THE FLYING SAUCERS ARE REAL." He is recognized as one of the leading civilian authorities on aerial phenomena.

Keyhoe quotes official government sightings and findings, and flatly states that the flying saucers are of interplanetary origin. A total of five countries, outside of the United States, he claims, are now investigating these mysterious aerial objects: Canada, England, France, Norway, and Sweden.

Furthermore, as the review of "FLYING SAUCERS FROM OUTER SPACE" in the Los Angeles MIRROR states: "He (Keyhoe) thoroughly and convincingly cracks Dr. Donald H. Menzel's temperature inversion theories as a basis for saucer sightings which were widely publicized last year.

The last thing that can be said about the book is that it is a MUST for everyone.

(EDITOR'S NOTE - For the benefit of our readers, the two books listed above may be obtained through this organization at the price listed. An additional charge of 25¢ per book for postage and handling will be appreciated, although it is not compulsory.)

OPEN LETTER TO ALL SAUCER INVESTIGATORS

By GEORGE H. WILLIAMSON*

THIS LETTER IS FOR YOU to read if you're one of the "crackpots" who claims to have seen a flying saucer, or at least who says he's interested in same! Strangely enough, the number of "crackpots" is steadily and rapidly growing, numbering well-known men and women in the ranks of the "believers." The purpose of this letter is not to discuss the fascinating "discs," but to have a heart-to-heart talk with you fellow "screwballs."

Max Miller and others were kind enough to invite me to attend the recent Convention; but I was unable to attend. For once, "bringing in the bacon" overcame my desire for saucerism. (Cont.)

* George H. Williamson is co-author of the forthcoming book, "THE SAUCERS SPEAK." Readers may send us advance orders for the book which will be out shortly. Price: \$2.00 paper back, \$2.50 cloth bound.

OPEN LETTER TO ALL SAUCER INVESTIGATORS

However, I really wanted to be there because Max and many others have gone a long way to get all of us together. I have heard tape recordings of the speeches and have talked personally with several who were present at the Convention. So, I feel as though I was just a "little mouse" looking on, after all.

I know some of you have heard of our group here in Northern Arizona. We're the ones who are "crazy" enough to claim we've talked to spacemen by radiotelegraphy! As all of you know, this "saucer" business is really BIG BUSINESS! If it were just the fact that Martians or Jovians were about one hundred years ahead of us in space travel and were coming down to Earth for a look-see, that fact itself would be quite startling and unbelievable to the general public. However, this is NOT the case...this saucer phenomena will directly affect our every way of life!

I spent some time on the Coast during December of last year and January of this year. During that time I met almost all of you. You're a great bunch...everyone of you, without exception is sincerely and intensely interested in this great drama unfolding before our 20th Century eyes! It's good to be alive at this time! There's no question of hoaxing...none of you are fathering hoaxes, because I believe you know what majesty you're dealing with!

I MENTION THE FACT THAT I've met most of you and followed you through your books and press notices (not always favorable, but non-damaging never-the-less) because I feel I'm fitted to look on the entire matter rather objectively from my mountain top here in Prescott.

Then I received news of the Convention...when all of you (nearly all) got together. That was really something! All of you, without exception, have something wonderful to offer. So why call each other liars and frauds? If the people interested in this "saucer" phenomena can't get together and act like brothers and put out a little of this brotherly love everyone is talking about, how can we expect the world to embrace the glorious New Age the saucers are supposed to usher in?

Brotherly love isn't a golden calf for us to fall down and worship, it's a practical, workable thing we should try to live every moment of our waking life. The saucer intelligences will work with anyone willing to work...but they avoid dissention like the plague. And right now, you're all at each other's throats! And now, I'm going to get rough...because I've heard these statements (and others unprintable) mentioned in your various meetings.

GEORGE ADAMSKI HAS TAKEN some terrific pictures. But someone saw him having a cool, refreshing beer one after noon on a hot day, so he immediately becomes a "sot" and therefore, unable to photograph space craft! Don't throw stones...don't judge! Let's believe in each other, for in unity there's strength...and we're getting stronger by the minute! Let's not concern ourselves with whether Adamski's pictures are fact or fiction...truth is powerful by itself and falsity is short-lived. These matters will weed themselves out. Others have been accused, George Van Tassel amongst them, of being psychic fanatics Meade Layne of BSRM has also been accused of being duped by "etheric creatures." I've read all of their material, and they're saying the same thing as you boys who say the spacemen are physical beings who bleed blood! After all, what does the word physical mean? I'm sure we don't know what's solid and what isn't. Now we know that what we used to fondly call "empty space" is not "empty" after all! So you go on losing sight of the goal and debate over this childish physical-spiritual question!

(Cont.)

OPEN LETTER TO ALL SAUCER INVESTIGATORS

THE GREAT THING, I BELIEVE, is that you are all getting practically the same information, whether it's through radiotelegraphy with a "ham" operator or radioned to you in a meditation period. The human-being is a far better receiving set than the radio equipment. The saucer intelligences will use that which is available and usable. Some of you who have never met or even heard of each other receive almost identical information. Don't you realize that this is the GREAT PROOF of the entire matter! This is tangible, it can be demonstrated and proved beyond the shadow of a Pentagonian doubt!

You are all receiving TRUTH, no matter what the medium for your information. It is only error when man-made interpretations of these experiences creep in. You all interpret your own material. I repeat...YOU ARE ALL SAYING THE SAME THING...you might use different words and terminology, but it's still the same identical thing!

Remember, we must have the spiritual with the physical. Sincere, honest psychics have a part in this drama as well as those of us who have had contact through personal experiences in the desert or in a "ham" shack.

And here's another fact that is overlooked and most important! So many people believe that the "saucers" are ALL OF THE SAME ORIGIN. They say Mars, or Ether, etc. and that's that! This is NOT the case. We are dealing first of all with beings in our own Solar System. In this System there are different degrees of progression and attainment and we on Earth find ourselves on the bottom of the list. However, we are also dealing with human-beings of other systems (many other systems) and some of these are even millions of years ahead of us. Here in Arizona we have been in contact with physical (as we know it) beings of our own planetary neighbors in this system. This is what Adamski is talking about. Others have been in contact through telepathy (ESP) with more highly advanced beings of far away systems. Some of them are so advanced they don't even need space craft to travel throughout the universe! After all, is everything outside of Earth IDENTICAL, and are we the only variation in Creation? Of course not! We are being visited by many different types of fellow human beings in different stages of advancement.

I see NOTHING contradictory in your different theories; at least not when you really analyze the things you boys have said and written. There can be beings on Mars and Venus as Adamski and some of the rest of us have said...there can also be beings inhabiting so-called "empty space" as others have said.

WHY ARGUE THE FACTS? We know we're pretty stupid down here on Earth, let's stand in the light we do possess and face the situation like good little Earthmen...not like a bunch of imbeciles tearing each other apart and calling each other frauds or hoaxers. Let time eliminate that which is false! For thousands of years we have been looking to men...we idolize them and follow them to the very gates of Hell, or we purge them and crucify them! Who cares whether someone is telling the truth or not? Who cares if someone drinks a little beer now and then...we are all sinners and we know it whether we want to admit it or not. LET'S NOT LOOK TO MEN. What men APPEAR to BE has nothing to do with what they say. Let's give everyone a fair hearing and if we can't force or choke down a feeling of brotherly love, let's at least keep our thoughts to ourselves until we are SURE!

When is hate going to end if we constantly meet it with more hate? We have the greatest opportunity to do good on this pitiful planet than we've had in centuries...let's take advantage of it...let's get our eyes off each other (we're nothing to look at anyway),

(Cont. page 12)

SHORT SHOTS

CONDUCTED BY

NEAL KEARNEY*

ON SEPTEMBER 26TH, 1953,** A SUBSCRIBER IN ONTARIO, CALIFORNIA WROTE: "DAY BEFORE YESTERDAY FOUR AIRCRAFT WORKERS HERE IN ONTARIO SAW A CIGAR-SHAPED OBJECT APPARENTLY FALLING END OVER END. THEY WATCHED IT, THINKING A PLANE HAD JETTISONED A SPARE GAS TANK. WHILE STILL HIGH IN (THE) AIR IT STOPPED FALLING, BECAME CIRCULAR AND FAINTLY LUMINOUS AND STREAKED NORTHWARD AT SUCH SPEED IT WAS OUT OF SIGHT IN SECONDS."

* * *

THE FOLLOWING IS QUOTED FROM THE AUGUST 1953 (VOL. 1, No. 2) ISSUE OF "FLYING SAUCERS" (OFFICIAL PUBLICATION OF THE CIVILIAN SAUCER INVESTIGATION OF NEW ZEALAND): "THE AUSTRALIAN FLYING SAUCER INVESTIGATION COMMITTEE IN MELBOURNE ON JUNE 1, 1953, ANNOUNCED THAT, AFTER THREE MONTHS' STUDY, IT HAD FORMED THE CONCLUSION THAT 'SOME SO-CALLED FLYING SAUCERS ARE REAL OBJECTS, AND ARE NOT CAUSED BY METEORS, HALLUCINATIONS, OR ANY ATMOSPHERIC FREAKS.' (CURRENTLY, THE COMMITTEE CONSISTS OF TWELVE MEMBERS, INCLUDING TWO INDUSTRIAL CHEMISTS, AN ELECTRONIC ENGINEER, AND FIVE ASTRONOMERS. TWO MEMBERS ARE WOMEN.)"

* * *

A PHYSICIST ENGAGED IN TOP SECRET ROCKET DESIGN FOR THE GOVERNMENT; A GRADUATE OF NORTHWESTERN UNIVERSITY WITH A PH. D. IN PHYSICS AND ANOTHER IN ASTRONOMY, ALTHOUGH EXPRESSING MUCH DISBELIEF IN THE BOOK "BEHIND THE FLYING SAUCERS" BY FRANK SCULLY, WRITES (AFTER WE QUERIED HIM ON THE SUBJECT): "HOWEVER, IN STUDYING HIS (SCULLY'S) WORK I RECEIVED QUITE A JOLT WHEN HE DEALS WITH THE THEORY OF MAGNETIC PROPULSION! SOMEONE, OBVIOUSLY A SCIENTIST, INADVERTENTLY LET SLIP A SUBJECT CLASSIFIED BY THE AIR FORCE. AS A RESULT, SCULLY CAME UP WITH A GEM. SOME RESEARCH ON PAGES 138, 139 AND 156 OF HIS BOOK WILL GIVE YOU A MINOR INSIGHT INTO CLASSIFIED MATERIAL.

"WE BELIEVE WITH SMALL INSTANCE OF DOUBT THAT MAGNETIC PROPULSION IS THE SECRET. IT IS PRACTICALLY CERTAIN THAT FLYING DISCS ARE NOT BLAST PROPELLED. THEIR SMALL SIZE AND PHENOMENAL CORNERING AT HIGH SPEEDS ALL BUT PROVES THIS."

* * *

AUGUST GILGES (OUR GERMAN REPRESENTATIVE) TRANSLATED THE FOLLOWING FROM A MAGAZINE PRINTED IN GERMAN. "IS IT POSSIBLE THAT MEN OF OTHER STARS COME TO SEE US?' A RUSSIAN SCIENTIST NAMED KASANZEW SAYS: 'FORTY YEARS AGO INHABITANTS OF ANOTHER STAR CAME INTO THE ATMOSPHERE OF THE EARTH. IT WAS THOUGHT TO BE A GIGANTIC METEOR. REALLY THEIR SPACE SHIP HAS FALLEN DOWN IN SIBERIA BETWEEN LENA AND JENISSEI ON THE 30TH JUNE, 1908. IT CAUSED TERRIBLE DESTRUCTION. SOME EXPEDITIONS TRIED IN VAIN TO GET TO THE CENTER OF THE DESTRUCTION. WE THINK THAT THIS QUESTION WILL BE ANSWERED WHEN THE REMAINS OF THE PROJECTILE HAVE BEEN FOUND.'"

* * *

A MAQUOKETA, IOWA COUPLE WHILE DRIVING ON A SMALL COUNTRY ROAD SUNDAY, SEPT. 27, AT 4 P.M. OBSERVED A LARGE CIRCULAR DISC ABOVE THE TREE-TOPS SOUTH WEST OF TOWN. WHEN AN ATTEMPT WAS MADE TO GET A CLOSER VIEW THE OBJECT STREAKED AWAY AT A RAPID RATE OF SPEED. THE DISC WAS TILTED AT AN ANGLE OF 45 DEGREES AND WHAT APPEARED TO BE A DOME WAS CLEARLY VISIBLE

* * *

* Neal Kearney is editor of "THE ROUNDHOUSE" (official publication of the Cup & Saucer Club of Maquoketa, Iowa), an excellent periodical devoted to flying saucers. For additional information, write: Neal Kearney, RR #3, Maquoketa, Iowa.

** An account of this remarkable sighting can be found in the Sept. 22, 1953, edition of the Ontario (California) DAILY REPORT.

L A T E N E W S

THE FOLLOWING IS FROM the October 1953 issue of "THE ROUNDHOUSE": "Jeron King Criswell has predicted that the government will make an official announcement on the existence of flying saucers on December 10, 1953. He previously said we would have space travel by 1963 because of the captured flying discs. It has been stated that he predicted Stalin's death and the Korean truce far in advance."

* * *

BESSIE T. ARTHUR, B. A., taught for four consecutive years in the Los Angeles Public Schools and is now lecturing on the Great Pyramid. She related at the recent Convention that the leader of Space Craft from the planet Clarion "could speak with us 'Earth people' without any possible misunderstanding," and that the "Clarions" on some occasions used an "observation type craft," but had many kinds.

Mrs. Arthur added: "All Space Visitors' missions are friendly to Earth and are even on its behalf. Consequently, the facts that they have told us had best be used only in constructive ways so as to be beneficial to all concerned."

OPEN LETTER TO ALL SAUCER INVESTIGATORS (Cont.)

get them off the sordid ways of Earth and look up to something far bigger and better. HE will guide us as HE has promised.

In short, let's quit the name-calling and simply LOVE one another...that's all that's necessary to clean up the general mess the world's in...let it start with us! It might grow and catch on like wild-fire; but all this name-calling will grow too and will develop into a gigantic Frankenstein that will surely destroy us.

MAY OUR INFINITE FATHER guide each and every one of us and grant us humility that we will not be cast down with those who would axalt themself.

* * *

Our deepest regards and best wishes to all of you...
you're a grand bunch of guys!
