FLYING SAUCERS AND AMERICA'S DESTINY

(Following is a reprint from a portion of a talk given by Riley Crabb, new Editor and Director of "Round Robin," given at the recent AFSCA Convention in Los Angeles. We recommend a subscription to "Round Robin," a factual and non-sectarian publication issued in the interests of Borderland Sciences Research Associates (BSRA), published bi-monthly, 3524 Adams Ave., San Diego 16. \$5.00 for six issues, \$1.00 per single copy.)

Does America have a prominent place in the future destiny of this planet? I believe it does. Time and again when you delve into the literature having to do with today's crisis in world affairs you find references to the leadership planned for America after the cataclysm is over....

One of the important studies of the planet we are in - or on, is the earth itself, its cycles, its rhythms. Some of the planetary rhythms are comparatively short and easily observed: night and day and the four seasons, spring, summer, fall and winter. The longer ones, however, are more difficult to observe: the emergence and submergence of land masses, glacial periods, the shifting of the poles; these seem to be governed by cycles or waves of energy which are thousands of years from peak to peak. One civilization may come and pass away entirely on the rising swell of a cosmic wave. Its inhabitants, under this mighty, subjective and positive influence, may thus create a culture whose beauty is the envy of mankind. Another civilization, born after the crest is passed, and spending its entire life of a thousand years on the downward slope, may create nothing but misery for itself and all around it! In each case only the disinterested observer standing outside the civilization would be aware of the difference, and its cause.

There are many indications that we are in the midst of a changeover from a negative to a positive period in the long, long history of this planet. You can find them in science, in astrology, in philosophy, and in religion.

In speaking of this mighty change it might be well to keep in mind the difference between cataclysm and catastrophe. Cataclysm is Nature at work. The breaking up of ice in the northern rivers in the spring is a good example of this. Who could or would stop that from taking place? It becomes catastrophe, however, when an ice jam threatens a man-made bridge, and destroys it. One or two may be hurt; a few are inconvenienced; to the rest of us it's just an item in the daily paper.

Cataclysm is always going on, sometime, somewhere on the face of the globe as the earth goes on about its daily business. Catastrophe, too, is always with us as some human beings get caught up in these things. The only advice I can give is to keep yourself so in tune with Nature, with the mighty Consciousness which lies behind all manifested life, that you are always in the right place at the right time.

As the space Visitor, Des'ka, told Doris LeVesque a couple of years ago: "Catastrophe can be avoided by Christ-like thinking, and will be averted for those who think Christ-like."

One form of cataclysm which has aroused considerable scientific interest of late is the so-called Polar Flip. More correctly this should be labeled "the movement of the earth's crust into and out of the polar regions."

Space Visitors have told their contactees that they were here to observe a crisis of planetary significance. A shifting of new lands into the North and South Polar regions would indeed assume celestial importance. The Antarctic continent would find itself in a temperate climate, and a new equatorial bulge might bring new lands to the surface in the Atlantic and Pacific.

This subject is discussed in a book issued last year by professors Charles H. Hapgood and James H. Campbell. The title of the book is "The Earth's Shifting Crust." In it they review at length the various theories put forth by science to explain the so-called glacial periods. In it they propound their own theory that a glacial period on any continent indicates the time when that continent was in one or the other of the polar zones!

Every continent shows evidence of having been encased in ice at some time or other. Yet entrenched doctrine maintains that the poles have always been in their present location. This in spite of the fact that fossil remains of domesticated animals have been found on Siberian islands in the Arctic Ocean - among the bones of mastodons and other prehistoric monsters. Also in these regions can be found the remains of tropical plants!

The growing accumulation of evidence of this kind, against entrenched doctrine, has kept the polar shift controversy alive. In school years ago you and I learned that the poles have been in the same locations for millions of years. This accounted for the gradual accumulation of ice on the Antarctic continent and on Greenland. Researches of Navy scientists at the South Pole in 1957 revealed that the South Polar ice cap is of comparatively recent growth. Through radio-carbon and ioium testing of the age of the ice it was found that the 10,000 foot plateau at the pole is only about 10,000 years old!

Now, geologists are pretty well agreed that it was about that long ago, 10,000 years, that the North American glacier melted away. Comparing these two facts, Hapgood and Campbell came to the conclusion that the shifting of the earth's crust was the cause of these simultaneous events. The North American continent moved away from the North Polar zone; the Antarctic continent moved into the South Polar zone at the same time.

Hapgood says that the simplest and most obvious theory for explaining any ice age is that the area concerned was at one or the other of the poles during the period of glaciation. Previous to the last polar shift the North Pole was in the Hudson Bay region. A glance at the world map shows that the land mass lay to the southward of the pole. Thus the off-center thrust of the weight of ice was southward. When the billions of tons of ice finally overbalanced the centrifugal force of the earth's spin, it pulled or tipped the earth's crust southward, on our Western side of the world, over two thousand miles, setting up new locations of the North and South Poles where they now are.

To simplify our understanding of this problem we'll have to assume arbitrarily that the angular relationship of the earth's axis to the sun will remain unchanged during the shift we are discussing here. The axis of rotation is represented by the North and South Poles in our drawing below. The direction of rotation at present is shown by the curved arrow coming around over the Pacific. The magnetic field or vortex is shown by the dotted lines. The shifting of the earth's crust occurs within this invisible cage. I believe the polarity of the earth's magnetic field may be reversed at the time of a flip. In fact this may be the invisible, cosmic trigger which sets off the physical movement! How this may be accomplished will be discussed later. But I believe the axis and the magnetic field maintain their tilt, 22° away from parallel to the sun. This latter condition maintains the seasonal rhythms so necessary to the evolution of the second and third kingdoms, vegetable and animal.

Since the North Polar area at the present time is ice-covered ocean, the responsibility for the next polar movement is on the vast pile of ice at the South Pole. A glance at the copy of Haggood's diagram on the next page shows "what an enormous sidewise heave results from the eccentricity of the geographical center of the ice cap." The center of the ice cap is 12° off the center of rotation. The direction of the thrust is along 96° East Longitude, as indicated by the arrow. When and IF the break does come it will pull the southern part of South America into the South Polar region. At the other end of the earth, Siberia will move into the North Polar region and America will move further southward into the tropics. If the move is anything like the one which occurred some eleven thousand years ago, it will put Southern California within 5° of the equator!

Below I have mapped probable Polar movement in the past, timed with Plato's dating of the sinking of the last remnant of Atlantis in 9,564 B.C. and the previous location of the Pole in the Hudson Bay area. Future movement of the Pole, shown by the second arrow, is the possibility suggested by Hapgood and Campbell's conclusions as outlined on the previous page.

I continue to use the phrase "Polar Movement" when actually it is the earth's crust which moves into and out of the polar regions. Of course it is probable and quite possible that the angle of tilt of the earth's axis in relation to the sun has changed and will change again. I believe George Van Tassel has hinted at this in "Proceedings" in discussing the New Age, saying that there will be no seasons. If so, this might mean both a shifting of the earth's crust and a change of the axis of rotation. When and IF this will happen is anybody's guess....

EXECUTIVE BOARD MEETING HELD SUNDAY

By Dorothy Miller

Sunday evening, August 9, several members of the Executive Board met at the home of Russell Cloud to discuss plans for activities for the coming year. The various speakers heard at the AFSCA Convention in Los Angeles were reviewed, and some will be invited to the lecture platform in Phoenix during the fall and winter months,

SPECIAL REPORT ON INTERNATIONAL FLYING
SAUCER CONTRACT WEEK-END

(In the April issue of the "Spacecrafter" we partially reprinted an article from "Flying Saucer Review," published in London, which urged the observance of and participation in a program of attempting to contact spacecraft during the Whitsun weekend, May 16-18, inclusive. A small number from the Forum Division of S.R.A. endeavored to make a contact at the May meeting and were unsuccessful at the time. However, returning from the desert meeting several members reported having watched a huge green fireball on their way home. Following is a report from the July-August issue of "Flying Saucer Review" on the events of that week-end. --Ed.)

The first ever International Flying Saucer Contact Weekend was held throughout the world over the Whitsun holiday, May 16-18,

In Britain, 50,000 enthusiasts were out watching the skies in various parts of the country. Your Editor and a party of friends were televised by the BBC while skywatching in the Ashdown Forest. Also, quite independently, a group of seven members of "The Atlanteans" were in the same area.... The party claim to have established telepathic contact with a space ship.

The Manchester Flying Saucer Research Society had parties out, but did not have a contact. However, one member of Vice-president Bunting's party saw what he considered to be a UFO.

In Denmark, 36 groups from the Danish UFO organization SUFOI were out over the weekend, 22 from Jutland, 10 from Funen and 4 from Zealand.

A group located at Vejle had a remarkable experience. At 8:30 p. m. on May 9 (part of the Whitsun operation was to work telepathically for a whole week previously) members of the group had a feeling that something would happen at 1:15 a. m. When the time came all felt as if the air was charged with electricity and all became very restless. Then a UFO was seen between two rows of trees.

At Langeland two UFO's were seen. They were bell-shaped! and remained visible for 33 minutes. Photographs were taken using 13.5 cm tele and Adox KB 17 film.

At Esbjerg on Monday, May 18, a green and later orange UFO was seen at 1:40 a. m.

Japan. Yusuke Matsumura, International UFO Observer Corps Far East Investigator, reports that Japanese Contact Weekend was held in bad weather. Nevertheless, an all night watch was held on the summit of Mt. Takao from 6 p. m. on Saturday, May 16. A light beam type portable "saucer communicator" was with the party. At 7:12 p. m. they claim that the space people came through and spoke "Hullo, Hullo" through their apparatus. Three hours later the party saw a formation of red-orange saucers in the northeastern sky. They made no sound, (Reports on contact weekend still coming in. - Ed.)

MESSAGE FROM ETHERIA

Our Brother Earthians:

Long have we sought to acquaint you with the fact of our presence among you. Long have we soared through your skies in an attempt to attract your attention that we might give you our message of Love and Brotherhood. Long have we warned you that a civilization predicated on fear and distrust cannot last. Some of you have heeded our words, but most of you have not. Rather you have preferred to jeer at those who have endeavored to acquaint you with the knowledge of our being and our purpose in visiting your Planet Earth.

Many of you have half-awakened to the knowledge that we are indeed among you, trying to spread our message of Love. But alas! You prefer to go on thinking the same thoughts, repeating the same actions, because it is too disturbing to realize that your way of life cannot go on forever.

We abjure you: MAN, AWAKEN! The time is shorter than you think! Do you not realize what this means to you? Cannot you open your eyes to the disharmony which surrounds you on all sides? And do you not know that our Creator rules with the Law of Love? Do you not understand that you, too, who are a little less than gods, must also live by the Law of Love if you are to survive?

Man today lives by false creeds, false premises and false words. He is not only distrustful of his neighbor but even of those whom he holds most dear. Fear, with its ugly companions, lust, avarice and hate, is the motivating force which would make you slaves instead of the god-men you were intended to be.

We would teach you the beauty of perfect human companionship; the joy of serving humanity instead of self; the glory which surrounds the true man - he who holds high ideals which he will never forsake. All this and much more would we teach you, for by living the Law of Love there is no limit to your accomplishment.

You were told in an earlier message that events would occur near the time of the equinox in your month of September which would be forerunners of other things to come. We do not speak of warfare with your abominable atom bomb, but of upheavals on Planet Earth, for she whom you call Mother Nature is in revolt! No more can she countenance the outrages which she has borne in the past. No more will she permit the clouds of evil thought forms you have created to harrass her. No more will she submit to the searing wounds you have inflicted upon her.

Men of Earth, you are in the "latter days" spoken of in your Holy Book. You have long been taught that as you sow so shall you reap. The day of the harvest is fast approaching. The reapers are prepared. You who have sown the seeds of kindness, thoughtfulness, truth, sacrifice, service and love shall profit much thereby. But you who have clung to negativity shall also reap the seeds you have sown.

We, your Brothers of Outer Space, have endeavored to make this clear to you. Do you not have eyes with which to see, and ears with which to hear? Know

you not that within a short time it will be necessary to evacuate your Planet for a few years? If you have not properly tilled the soil with Love and sown the seeds of Service, think you then that you will be worthy of harvesting?

Many months ago we channelled a message to you which we called "Planet Earth At Crisis" and which was made available to all of you. Read this booklet and awaken, Man of Earth! If you have read it once we entreat you to read it again that you may become fully aware of that which lies before you. The time is shortening day by day.

We give you our Love and our Blessing and await the day when you can say, "We too will live in the Light and Love of our Creator."

Your Etherian Brothers

NORTHERN CALIFORNIA SPACECRAFT CONVENTION
TO BE HELD SEPTEMBER 5 AND 6

The Alameda County Fair Grounds at Pleasanton, California, will be the scene of the Second Northern California Spacecraft Convention Saturday and Sunday, September 5 and 6, 1959. The program will begin at 10 A. M., and a charge of \$1.00 will be made for each day. The Convention is sponsored by Spacecraft organizations of ten cities in Northern California.

Among the speakers will be George King of England, Otis Carr will display his OTC-X1, and Major Wayne S. Aho will act as Master of Ceremonies. Jeanette O. Jackson will also exhibit her inspirational paintings,

Free trailer space with a picnic area is provided, or you may stay at one of the nearby motels. Food will be catered.

For further information write Northern California Convention Committee, c/o Rowena Armstrong, 10407 Graffian Street, Oakland 3, California

NEVA DELL HUNTER TO BE IN PHOENIX
By Dorothy Miller

Several S. R. A. members will trek to Sedona this month to attend the retreat at Canyon Portal Motel in Sedona under Neva Dell Hunter. Mrs. Hunter is planning to come to Phoenix around the first of September. Anyone interested in a reading may contact Dorothy Miller at AM 6-8309 for particulars.

AFSCA CONVENTION A HUGE SUCCESS

By Pat French and Joanne Lacy

The First National Convention of AFSCA (Amalgamated Flying Saucer Clubs of America) held at the Hotel Statler-Hilton in Los Angeles, California, on July 11 and 12 exceeded all expectations. The estimated attendance of 1,000 anticipated by Gabriel Green, Director, turned out to be 2,000, as reported in a two-column article in a Los Angeles newspaper.

The theme of the National Convention was "World Peace Through Constructive Action," and the chief purpose was to awaken the general public to the fact that UFO's really do exist, they are interplanetary, they are manned by intelligent peoples not unlike ourselves, and they have not come to frighten or wage war but, rather, they have come to our earth planet to lend a helping hand in peace.

Giving the Convention an added stimulus and calling the attention of the entire world to the reality of UFO's, sightings were made by crews and passengers of five trans-Pacific planes between Hawaii and San Francisco. News of this was carried around the world on Saturday, July 11, the first day of the Convention, and the Los Angeles Herald Express gave two-inch headlines to this news. These sightings did not come as a surprise to a number of people, for messages had previously been received with the information that sightings would draw the attention of the world to the subject of flying saucers while the Convention was in progress.

Forty-five speakers were presented, including authors and contactees from all over the United States, as well as from Canada and England, and seven lecture rooms were in use during the two-day session. It was impossible to hear all the lectures and such large crowds were in attendance that at one time the City firemen removed all those not seated from the lecture halls.

An outstanding feature of the Convention was Larry Boren's New Age Symphony (animated light set to music). Words cannot adequately describe the program because it is an experience in itself and must be seen and heard to be believed. A device sensitive to vibrations appeared to transform the vibrations of the music into living animated colors and to project them onto a screen. The colors moved like a swirling mist and were correlated with the music so as to change with the mood and rhythm. This process was given to Larry Boren by a group from the Planet Venus and its chief purpose is healing through color therapy.

George King, founder of the Aetherius Society of London, England, was one of the more popular speakers attending the Convention, and those who got up early enough to attend the 10 o'clock lecture were privileged to hear a transmission from Mars Sector 6 which was both inspiring and practical enough for all of us to use in our everyday life. George King has been a student of metaphysics all his life, and for the past few years has been in contact with a group called the Interplanetary Parliament by whom he is being used as a channel for the purpose of bringing Peace and Harmony to our world. At the present time he is on an extended lecture tour which will cover the United States. Mr. King has an excellent message and

advantage should be taken of any opportunity to hear him speak,

Fourteen-year old William Suthers drew a tremendous crowd, and he more than justified the attention. His message was for and concerning the New Age children, of which he appears to be an outstanding example. He spoke not as a child but with the ease of a public speaker and with the wisdom and understanding that must be gained through experience.

Some of the other lecturers present were Carl A. Anderson, Orfeo Angelucci, Bessie Arthur, Michael X, Truman Bethurum, Lee Childers (Prince Neosom), Riley Crabb, Eugene H. Drake, William Ferguson, Marianne Frances, Dan Fry, Calvin Girvin, Ozzie Gonzales, Gabriel Green, Dr. John Hopkins, Dana Howard, Ralph R. Huffman, Neva Dell Hunter, Zelrun Karsleigh, Della Larson, Dr. Joseph Larson, Hadi King, Elana Lane, Gloria Lee, Dan Martin, Laura Mundo (Marxer), Dick Miller, Will and Evelyn Miller, Rev. W. S. Mowery, Marian E. Nigl, Rev. Marke Norman, Mark and Irene Probert, Leroy Roberts, Kelvin Rowe, Winogene Savage, Reinhold Schmidt, Robert Short, Rev. William W. Suther, Jr., Hope Troxell, James Velasquez and Leo E. Wagner.

Among those attending from Phoenix were Russell Cloud, Frances Cloud, Gladys van Derslice, Holly Bamper, Jack Myers, Jess and Lena Robinson, Franky Miller, Mr. and Mrs. Charles Anderson, Joanne Lacy and Pat French.

CAPT. RUPPELT REVISING HIS UFO BOOK?

According to NICAP, it is rumored in Washington that Capt. Edward J. Ruppelt has been pressured into debunking his book, "Report on Unidentified Flying Objects," published in 1956 and one of the classics in the field. Major Donald E. Keyhoe states that at the time Ruppelt was considering writing the book he made the following statement to him: "I wouldn't do a book if I didn't tell the truth exactly as it happened, and believe me this would not follow the Air Force party line." The book was based on information he had learned as head of Project Blue Book, the AF Intelligence unit investigating UFO's. "I know it is a true record," says Major Keyhoe. "Several AF officers who had worked on the project have confirmed this; also, NICAP has proof of the most important disclosures," Keyhoe added.

DR. KELSEY SPEAKS AT JULY MEETING

By Dorothy Miller

Dr. Don Kelsey, minister of the Phoenix Church of Divine Truth, addressed the Forum Division of S.R.A. on July 17 at the home of Mrs. Jean Timerac, 5014 North 29th Avenue, in Phoenix.

Dr. Kelsey is well versed in all phases of the metaphysical and occult sciences and his address was warmly received.

Due to the absence of the President and Vice President, Dorothy Miller, Recording Secretary, presided at the short business meeting. Refreshments were served by Neva Shroul at the close of the session.

WAS THIS PLANNED?

On Saturday, July 4, a group of saucerites attended a meeting at the home of Gabriel Green, Director of AFSCA, in Los Angeles. Among those present were such well known personages as Dan Fry, Orfeo Angelucci, Bessie Arthur and Mr. and Mrs. Kelvin Rowe. Your editor was also privileged to attend.

During the meeting a number of things were discussed, among which was the fact that several of those attending had received information from space people that there would be a sighting which would receive publicity and augment interest in the Convention to be held in Los Angeles the following Saturday and Sunday, July 11 and 12.

On Saturday, July 11, the "Los Angeles Evening Mirror News" carried the following blazing 4-inch headline:

"MYSTERY SKY OBJECTS SIGHTED OVER PACIFIC"

However, the information contained in the article was meager as full details had not yet been released.

Orpha Romine contributed the following article concerning this sighting which appeared in "The Arizona Republic":

Pilot Spots Mysterious Light In Sky

Honolulu (UPI) - A Pan American Airways pilot, who spotted a mysterious bright object traveling in the skies at "inconceivable speed" yesterday, said it had made a believer out of him.

The pilot, Capt. George Wilson, 43, Seattle, Wash., a 19-year flying veteran, said he had never before believed such flying foreign objects existed. "I'm a believer now," he added.

Wilson was only one of five Trans-Pacific airliner pilots who reported sighting the lights.

Visibly shaken by the experience, Wilson reported to air force officers that he was flying a DC-7C from San Francisco to Honolulu when he saw "one intensely bright white light followed by four smaller lights. At the time, he was about 1,000 miles east of Honolulu in clear skies.

"We were cruising at 20,000 feet with low clouds decked below us when the object first appeared about 1,000 feet above us and to our left," he said. "My co-pilot, Richard Lorenzen, and Flight Engineer Robert Scott, stared open-mouthed as the light came toward us at an extremely high rate of speed. For at least 10 seconds, it maintained its course which was on an opposite heading to us and had it been another aircraft it would have passed well to our left.

"Suddenly the object made a sharp right turn at a speed inconceivable of any vehicle we know of, and the light suddenly disappeared. The smaller lights were evenly spaced and were either part of the mysterious object or this was an example

of darn good formation flying."

Four other pilots also reported spotting the mysterious bright lights. They included Capt. Lloyd Moffatt, of Canadian Pacific Airways; First Officer Erwin Zedwick, of Slick Airways; and two other Pan-American fliers: Capt. Noble Sprunger and Capt. E. G. Kelley.

Moffatt, who has been flying since 1941, said: "You can take it from me, they were there. I never saw anything like it in my life. And there are four of us who saw the same thing at the same time."

An air force spokesman said all the pilots were interrogated and filled out questionnaires on the sightings. He said the reports would be forwarded immediately to the Pacific Air Forces Command here, to the North American Defense Command in Colorado Springs, Colo., and to Washington. They will be classified under the heading of "unexplainable natural phenomena," he said.

The spokesman said the reports "varied a little bit," with some of the pilots saying the lights could have been a meteor and others that they could not have. He added that there were no air force planes in the area at the time that could have caused the lights.

PEARDROP SHAPED UFO OVER WELSH TOWN

A large crowd in the streets of Pwllheli, Carnarvonshire, on the night of June 5, saw a pinkish vermillion-coloured object moving eastwards in a clear sky. Seen through powerful glasses it was shaped like a peardrop. At times it seemed to be brilliantly lit. It was first seen almost directly over the town, shortly after 8 p. m. Mr. Ken Curtis, a coastguard, said: "We haven't seen it ourselves but we have had several telephone calls inquiring about it. We asked the Met, office at Valley, Anglesey, but they said they were unable to make out what it was."

Editor's note: The question could be posed: Are the saucers coming nearer? Sighting reports are now reaching the Review with consistency, frequency and from widely separated areas of the planet. The whole operation seems more intense.

SPANGLER TALKS TO GROUP

By Dorothy Miller

An unofficial social evening was spent at the home of Esther Frank Saturday, August 1, by several S. R. A. members. Many of the members were on vacation or, due to short notice, could not be contacted. Several went swimming in Esther's pool. Russell Cloud reviewed some of the speakers and events at the AFSCA Convention, and Marshall (Bud) Spangler told of his years of search and research on the subject of unidentified flying objects. Bud and his wife, Hazel, are temporarily in Phoenix where he is doing special work for Gordon Ainsworth & Associates. It is hoped the Spanglers will meet with the group again,

ADEPTS - CAN GOOD THOUGHTS HAVE PAVED THEIR PATHS ?

By Betty Eilers

From an old book this came to life before our eyes - "the Adept's statement that certain other planets, besides this earth, are concerned with the growth of the great crop of humanity of which we form a part. This is not advanced as a conjecture or inference. The Adepts tell us that once out of the body they find they can cognize events on some other planets as well as in distant parts of our own."

For those who have eyes and ears to see and hear, the above, taken from a book printed in 1899, only verifies what many of us have been saying. These Higher Beings are not being mocked any more than a galley slave of olden days could mock with impunity Caesar - for we are slaves - slaves to custom, belief, and above all the comforts of "civilization," and we don't realize that the very chains that make us slaves will carry us to the very bottom of the ocean of ignorance. Rome slew herself from within when she became soft for herself and her friends while watching deliberately planned cruelties - not only perpetrated on Christians but among slaves, human and animal as well - for entertainment as we do today. Children were conditioned to display no emotion as suffering spirit and quivering flesh of man and beast fell at the feet of the jeering or cheering spectators - even as happens today. Lust, for power and blood, is an attribute peculiar to the human species, and of all man's attributes, it probably is the most revolting in the sight of "The Compassionate Ones" - those Higher Beings who see that ALL LIFE IS ONE and only love and cooperation can solve problems born of SELFISHNESS and GREED.

A sick mind is one that blames an inanimate object for some crime or tribulation. For example, cars are blamed for highway killings, yet is anything more ridiculous than to consider the car - made by man who has not the power to instill free will nor life into it - as deliberately aiming its hood in the direction of another with the purpose in mind of killing and/or mutilating the occupants of the vehicles? Seldom is it said "the driver of the vehicle" caused such and such accident, or the like. We insist on passing the buck. We insist on refusing to accept responsibility for our acts.

Even today's children are accusing their parents of saddling them with huge national debts (and many adults are preaching this too), yet weren't we also saddled with national debts? We can't blame others, for in the economy of Nature and in the working of Karma we all share in the glory and disgrace of nations and individuals. Hence, we must learn to accept our responsibilities which we have earned for ourselves in previous existences. In other words, we asked for it and when we receive it, why complain? And so it is with hydrogen bombs and other nuclear devices that destroy - man's destiny seems to be that of the spoiler and destroyer. Of themselves they are harmless, but when used and abused by man they are helpless, for man has enslaved the pieces of Intelligences - and science is proving that some degree of Intelligence exists in all things - to serve his own blasphemous purposes.

Let us then work for peace and harmony. An excellent place to start is to look at another person and say, "I am he!" Then look at a tree and say, "I am it!"

Gaze into the eyes of an animal - deep, deep into the eternity that gazes back at you - and say, "I am she." Then look at a piece of gold or clod of earth and say, "I am that." ALL LIFE IS ONE, and if we harrn another manifestation we are hurting ourselves. This is stupid!

"Every thought of man upon being evolved passes into the inner world and becomes an active entity by associating itself, coalescing, we might term it, with an elemental - that is to say, with one of the semi-intelligent forces of the kingdoms. . . a good thought is perpetuated as an active, beneficent power, an evil one as a maleficent demon."

Humane thought honors Brotherhood.

MOON BASE MAY COST \$20 BILLION

Washington (AP)--It may cost the United States 20 billion dollars to establish a base on the moon. Such a base would accommodate up to 10 persons and probably would be launched by a six-stage rocket using four stages for the trip to the moon and reserving two stages for the return to earth.

"Aviation Week" magazine said these estimates were provided to the Air Force recently by industry representatives working on studies regarding lunar ventures. The estimates dealt with the establishment of a base on the moon by 1958.

BUCK NELSON'S SPACECRAFT CONVENTION HIGHLIGHTS

Several persons of this area (Independence, Mo.) attended Buck Nelson's Spacecraft Convention at Mountain View, Mo., June 27 and 28. A number of those present camped out at the convention site and enjoyed the camp fire atmosphere as they listened to speakers on Friday and Saturday nights, June 26 and 27...

One of the highlights of the convention was George King, chairman and founder of the Aetherius Society of England. He spoke relative to his communication with Masters of other planets and urged universal peace through abandoning our atomic and hydrogen bomb tests. He also told how space people are helping us, such as: Maintaining satellites to provide energies, charging mountains as New Age power centers, alleviating radioactivity, easing conditions, continuing the teachings of Jesus, and preparing the way for a forthcoming Avatar.

Another high interest spot was Jim Velasquez (Ethe), of Santa Ana, California. He spoke of his psychic experiences with the "Lords of the Light of Etheria," passing on information conveyed to him via a question process used by space people during subsequent telepathic contact. With a word directed especially to the contactees he made a plea to them to "clean up their ranks." He also explained music he has been given corresponding to the vibratory rates of colors, which he has on disc recordings, and told of forthcoming volumes of New Age Proverbs which he has received and is putting into print. He has also had personal contacts.

The Mitchell sisters, of St. Louis, surprised us by saying they expect to move to Kansas City in the very near future. They both gave a talk and brought a message from the space contact from Venus recounting the history and prehistory of Earth showing lagging spiritual progress. The speeches by the two Mitchell sisters are being mimeographed and will soon be available from Paul Wheeler, 1117 West Truman Rd., Independence, Mo. Price 50¢.

Space does not permit a complete coverage of the convention in this publication but here are the remaining speakers: Fanny Lowery, Sherman Lowery, Bessie Arthur, Chief Standing Horse, Truman Bethurum, Prince Neosom, Russell Dilts, Nathan Baldwin, Paul Wheeler, Dana Howard, Wayne S. Aho, E. H. Blomberg, Alice Findling and James L. Hill.

MILLER-KREML NUPTIALS AT UNITY CENTER

Susan Miller will be married August 23 to Milton Kreml at the Unity Truth Center, 37 West Moreland, Phoenix, at 4:00 P. M., with Mrs. M. E. Cate officiating. Both young people are students at Arizona State University at Tempe, and after August 23 will be at home at 527 South Pinto Drive, Apt. 4, Scottsdale, Ariz. All members are cordially invited to attend the wedding. Susan is the daughter of Dorothy Miller, Recording Secretary.

EXPECT LESS FROM OTHERS

By George Matthew Adams

One reason why there are so many of those whom we meet who early become strangers is that we expect too much from them. I think we should take our friendships and associations as happy problems, to be solved through love and understanding.

We are problems to ourselves! Each of us has our expectations. Why should others disappoint us? Expect less from others and they may expect less from you. Friendships often fail when we expect too much from them.

If you have but a solitary friend, who is tried and true, you are among the rich in mind and heart. You then have an investment that never loses its value. You will grow richer each day of your life. Once you have that kind of friendship, do not expect too much of it. Measure it out. Give to it all the loyalty that is yours, and what a possession you will then have!

The education of a child would be so much easier and sound if those in charge of it would not expect too much. It would be better to expect less - and get more. We grownups could be handled in the same way.

Who can accurately predict the future of a human being? I was recently reading the story of Theodore Roosevelt, and I took some time in observing a photo of this great man as a small, rather delicate child. Who could then say that he would develop into the worldwide character that he did? He even surprised that old political wizard - Tom Platt!

Many a one has given more to life than people expected him or her to give. Aspiration is a wonderful trait to possess. Thousands sell a security "short" but this should never be the procedure with men and women! They stand apart from all predictions.

SOMETHING NEW ABOUT SAUCERS

The people who claim to have seen flying saucers may be right. A French scientist asserts he has discovered a way to build one capable of traveling in the cosmos at unlimited speed. Dr. Marcel Pages would simply eliminate the earth's gravitation by a rotating electric field. His theory is that Newton's apple didn't fall because of the attraction of the earth but because of the repulsion of cosmos. In other words, the force which we call gravitation is sheer concentrated protonic energy. Dr. Pages has been working on his theories for 40 years and presented them to the International Congress of Satellites and Missiles in Paris. His saucer is round and flat with a cabin for passengers in the center just like a great many reported seen from time to time in this country.

So maybe we earthmen are just catching up with those visitors operating unidentified objects. At any rate his anti-gravitation concept is a good hot weather topic.

SPACECRAFT SIGHTINGS

- June 19,
10 p. m. Looking south toward the mountains from her home on Missouri Avenue near Black Canyon Highway, Dorothy Miller observed an enormous round object dropping swiftly and silently from the zenith of the heavens. The color remained white and an exhaust or trail streamed behind it for a great distance. The object pulsed, the color being wavelike. When it reached the point over South Mountains where the lights of the City reflected upward, it silently vanished.
- July 2. Pat French saw a spectacular display from her home at 1402 East Earll Drive. Looking westward, she saw what she first thought to be Venus slightly move. Realizing that it was nearly midnight and Venus had already set, she stopped and watched. Mentally she asked if it were a spacecraft, and immediately the object grew in size to about twice that of Venus at the time. She observed the light for about five minutes, during which the color changed from a brilliant white to orange, to blue-green, and back to white.
- July 14,
10:50 p. m. While Joanne Lacy and Pat French were scanning the sky a jet plane came into view. They watched the plane for a moment, then observed other portions of the sky. Suddenly Pat remarked, "That's funny. There are two of them." Yet both girls knew there had been only one a moment before. As the object in front of the jet did not blink or appear to be more than one light, they mentally asked for a sign if it were a spacecraft. No sooner had the thoughts gone forth until it blazed up to about three times its original size. Both objects continued across the sky, keeping the same distance apart, until they disappeared into the clouds.

For some time Pat French and Franky Miller have watched the activity in the South Mountains area where many saucers are to be seen almost any night in the week. They are most easily discernible around the area where the T.V. and radio towers are located in South Mountains.

According to saucerzines coming to your editor's desk, the rate of sightings is rapidly increasing all over the world. Is this going to be another big flap comparable to that of November, 1957, and for which there seemed no apparent reason? Or is there another purpose served by their increasing numbers? Time will tell.

GREEN SPACESHIP OVER ETHIOPIA

A spherical-shaped, greenish object appeared at noon over Yergalem, the main town of Sidamo Province, in the south of Ethiopia. It flew with a swaying motion several times over the town. (Source: Mombasa Times, Kenya, April 18.)
