## **THE KILLIAN STORY**

Capt. Peter Killian was scheduled to appear as the Special Guest Speaker, for N.Y.S.I.B.'s last Meeting, on March 29th. A last minute phone call from Mrs. Killian to Miss Jessop (N.Y.S.I.B.'s Lecture Chairman) cancelling the appointment was a disappointment for all Members.

Capt. Killian is employed by AMERICAN AIRLINES, and on the night of February 25, 1959, was pilot of a D-C 6 Passenger Plane, on a scheduled flight, from Newark, New Jersey, to Detroit, Michigan. When flying about 8,000 feet between Philipsberg and Bradford, PA., at 8:45 P.M. he sighted 3 bright whitish lights in a single horizontal line overhead. At first Capt. Killian thought it was the Belt of Orion ( a group of stars in a constellation ) then taking a second look, he saw both the Belt, and the unidentified objects. These three U.F.O.s escorted the plane for FORTY-FIVE minutes.

After the officials investigated Capt. Killian's report, it was given out by the authorities, that he said "Flying Saucers" were only JETS refuelling in mid-air.

Capt. Peter Killian was then warned not to appear in public and tell his story. Should we comment, "That silence is golden"?

Major Donald Keyhoe, of N.I.C.A.P. Washington, D. C. is making a complete investigation, with the Air Force, on this matter.

# THE EDITOR SPEAKS

The response to the new UFO-mation has been gratifying indeed. There is a great possibility of reforming the ranks of all types of U. F. O. fans against the Secrecy Group that Dr. J. Robert Oppenheimer, Director of the Institute for advanced Study, Princeton University warned against in the New York Times of December 3, 1958. This is mental strangulation of the public mind. This may be necessary in the minds of those "elected" (?) to protect the United States from aggression. This also applies to the other half of our divided world. Ordinary humanity is at the mercy of warring ideologies. Only an informed public can decide the issues thru the ballot. If we are, and it is a big IF, denied the TRUTH about the present world of science and its effects on world economy, then politics will become the master and we the people, the robots of a system that the Constitution of the United States attempts to smash.

The dangerous thinking at high levels is the idea of "Indispensable Man". We as a nation are indeed poverty stricken if there is only one Sherman Adams, and just a single John Foster Dulles. N.Y.S.I.B. does not want to be politic but the danger signals are up! The British press is beginning to rumble about our "sick leaders". Does this condition reflect their thinking? "As a man thinketh so is he" is an ancient truism. The thinking at high levels seems to be that we are not capable or honest enough to manage our own affairs. The tax money must be taken away before it is even handled. The interest is lost by the individual in the State of New York. How soon will this insidious idea spread all over the land?

Why is N.Y.S.I.B. concerned? Because SAGE and other weapons being devised at the Massachusetts Institute of Technology which are "shrouded with super-secrecy" (These are the words of the press, not ours) have developed into a Brain Trust. Fantastic? This is from the Chicago Daily News Service, March 14, 1959. BRAIN MACHINE SEEN DECIDING HUMAN POLICY. Is this some hopped up reporters nightmare?

"An interpretation one scientist here placed on the talk is that a robot brain could make the decision (war) if the President were suddenly incapacitated". There would of course, be no morality or ethics or soul, or what have you, to stop the robot. The only hope in this report was that "Some of the young scientists who are leading the way to the robot era, shudder at the thought of using electronic brain machines for the purpose of destruction..

## MAIL BAG

So many letters of interest have been received that space does not permit even partial reproduction. The Editor & Co-Editor have replied to them, and also to some old ones ignored by previous officers. Space does not permit many reproductions.

From Switzerland, Lou Zinstag sends U.F.O. SIGHTUNGEN UBER DER SCHWEIZ. We have elsewhere translated a few extracts.

Canada's Gene Duplantier has written and we are reproducing some of his material.

Lawrence E. Lindvig has written that he is ready to co-operate and if members require tapes on U.F.O.S. they should write to L.E. Lindvig 4645 W. Adams St., Chicago 44, Ill.

We received a wonderful letter from Ray Streib of U.F.O. research Bureau R.R. 3 Danville, Indiana. He reports on U.F.O. activity over the Panama Canal Zone. Copies of the U.F.O. NEWS are on file at N.Y.S.I.B. He advises us that the first 'manned rocket ship' has been completed by Convair. The engine is being constructed. As we all know seven planets have been readied by the Government...but no news about the ship.

The New Age Publishing Company has written some very complimentary things about U.F.O.,-MATION.

Mrs. Wm. H. Byrd of 4449, Ranchview Rd. Rolling Hills, California claims to be a "Contactee" anyone interested should write as she is publishing, "WHY WE ARE HERE" at \$2.75 by Gloria Lee.

We cannot wind up without mention of Gaylord W. Engle of Rhodes, Iowa a most interesting letter lies dormant in N.Y.S.I.B.'s files. They have seen U.F.O's and his family are clairaudient. Those interested in the "Contactee" should write to him.

## Foreign Sightings

A German UFO paper, "Neuse Europa" writes an article about an EX-Nazi, now in exile in Santiago, Chile. He claims to have been 18 months in a Venusian Space ship, being trained in military supervision by Planetary Hierarchies.

Their aim is to make plans for a New World Republic with Headquarters in Berlin. The Soviet Secret Police makes frequent visits to Santiago Claiming the right to change the Headquarters to Moscow as the Americans evacuate Berlin. An UFO mass landing will follow and all opposition met with a "Death-Ray".

Is this a world conspiracy marching under "Venusian Banner"?- The realization of a lunatic "Hitler Dream"?-

For the readers information, the EX-Nazi's name is Karl Michalek, Ahumada 131, Office 110, (Edificio Waldorf), Santiago, Chili.

The "Visitor" published in Detroit, Michigan in the JAN.FEB. March 1959 issue carries many UFO sighting that have occurred in Poland.

The Polish "Dookla Swiata" publishes a story about an atomic physicist Olgierd Wolczek and the editor visiting many towns and gathering sightings similar to the U.S. sightings. Apparently the Polish Press is very objective about the reports and does not indulge in ridicule. N.Y.S.I.B is very fortunate to have these translated articles along with the sketches made apparently by Editor Neugebauer. He also made taped recordings and signed interviews. A tip of the hat to Editor Neugebauer of the Polish Weekly "Round The World"

This answers our question in the last issue.. "Do flying saucers appear behind the iron curtain. In Polish the saucers are called "Latajace Talerze" As U.F.O. Study Clubs exist in Poland we intend sending a copy of UFOmation to Editor Neugebauer.

In June 1958 a mysterious blast occurred in one of the main traffic sections near Carrara in Northern Italy.

The stormwindows in some of the trains broke into pieces and fell into a nearby swamp. Even the heavy glass windows in Omnibusses suffered considerable damage causing injury to many passengers. The accidents remain unsolved.

# FOREIGN NEWS.

Your Editor received copies of SAUCER, SPACE & SCIENCE edited by Gene Duplantier, 1157 St. Clair Ave. West, Toronto 10, Ontario, Canada. We reprint some extracts because they confirm some of our conclusions re space ships versus saucers.

### BRITAIN FAR ALONG ON DEVELOPMENT OF FLYING SAUCER

London, Jan. 26 (Reuters)—Britain has taken the wraps off a secret project which may win an international race to develop the world's first flying saucer vehicle.

This would be a major step to smooth "magic carpet" travel over land & sea. The National Research Development Corp. here has announced that Britain's flying saucer, or hovercraft, designed to ride a cushion of air above water, has reached such an advanced stage of construction that a piloted version might be tested "within a few months."

Credit: Dough Mapes; Buffalo Evening News, Monday, Jan. 26, 1959.

Meanwhile, back at Malton, Ontario, home of Canada's flying saucer, the AVRO Aircraft Company had to lay off 13,800 workers because of the cancellation of the CF-105, better known as the AVRO Arrow. However, it is known that work and development will continue on the vertical take-off flying saucer project for the U.S. Air Force. (See P. 6)

The Russian's biggest newest secret weapon is an atomic ray gun. The gun's rays can cut boulders like butter...The top defense brass, including Secretary of Defense, Neil McElroy, will fly to a new secret missile launching base in the Pacific in April. The U.S. plans to try another shot at the moon from this new base.

### BLAMES FALLOUT FOR STRIPED COWS

London, (Reuters) Jan. 26, 1959—Radioactive fallout now has got the blame for raising zebra stripes on cows. Welsh farmer Maurice Thomas plans to sue the government for compensation for the damage done to his pedigreed herd by nuclear tests, according to the Sunday newspaper "The People". The cows' hair fell off in strips.

## The U F O IN LITERATURE

Classic literature is timeless like all the arts. It contains TRUTH beyond the limitation of current fashion. Time and time alone decides what is durable, and therefore timeless. A man like Marcus Aurelius holds more respect from modern man than many a modern dictator, when he writes

"Love the art, poor as it may be, which you have learned, and be content with it; and pass through the rest of your life like one who has with his whole soul entrusted to the gods all that he has, be neither tyrant or slave of any man."

Marcus Aurelius 161-180 A. D.

This is a voice from the past espousing freedom for the individual. He was not a christian so his reference no modern psychologist would reject. Aurelius by many scholars, is considered fatalistic, melancholy, whistling in the dark. "Despite the unreasonableness of men and events, there is a deeper REASON which is good, a reason which is God". (This last quote is from a modern writer, not believing in gods, but a God). Such thoughts about Aurelius become suspect if the "Elohem" is considered in reference to creation of a planet. Space contactees claim there is a hierarchical system in the Universe. Perhaps Marcus Aurelius was not far off the beam when he stated: "If a fault is in your own power to correct, why do you persist in it? But if the power is in another, whom do you blame—the ATOMS or the GODS? Both are foolish. You must blame nobody. If you can, correct the cause.." Things have changed since his day. We do have a say in the affairs of men. How foolish is an electronic BRAIN. Who or what is our God? These are burning questions of the Day. (See editorial)

Down thru the ages man has sought an escape hatch either by solar boat, flying horse, solar chariot, thunderbird or solar ship. Suggested reading on this last item and U.F.O. in general, is the OAHSPÉ, a New Bible by Dr. John Ballou Newbrough 1882 A.D. Saucer fans will be surprised to find how old is this problem of ATOMS and GODS.

## CANADIANS REPORT ON RUSSIAN MEDICAL PROGRESS

Too little information about Russia reaches the general public. It is deplorable that the reports of our own Flying Saucer stories are apparently suppressed by the press but what about Russian contacts? Are certain Russians getting and acting upon 'Space Help' ? The theme has been that the Space People see no division in humanity as we do. They want to help all dwellers on the dark planet Shan (Earth) but only with positive and constructive ideas and principles. George Van Tassel claims to have received health principles to date no one seems to pay serious attention. Is there opposition? Out of Russia comes a new approach to health.

There is a strange similarity to the stories and the yoga methods, especially hatha and rajah yoga. Perhaps we should re-read George Adamski?

Two Canadians Charlotte and Dyson Carter spent considerable time in Russia in clinics and at the U.S.S.R. Psychiatry Institute with a Dr. P. E. Beilin. They report:

Dr. Beilin after considerable orthodox opposition (same as here) 'discovered', as a medical researcher from the Ukraine (that is we suppose equivalent to 'from the sticks') and demonstrated that the body and mind can be healed by 'sleep! Sleep without drugs. Sleep against pain. Sleep without hypnosis.

Artificial moonlight to heal with sleep. Sleep with color and pictures. This is not the ordinary sleep of fatigue. Of course this is very inexpensive.

One giant step claimed by the Russians is proof that babies and alcohol just do not mix before birth. Perhaps that is why Khrushchev clamped down on vodka...except for grandpas! Baby raising always seem to forecast war, if it becomes the concern of a Napoleon or a Hitler.

Another 'discovery' is that the skin is the most important muscle in the body. It can be exercised sitting down and controlled to give perfect health. (All yogis take a bow) Then there is the topic of 100 year olds...only 200 years to go to catch up to the beautiful Space Girls!

It is also claimed the Russian advances against Cancer are greater than their Sputnik and Satellite successes. IF this is so, will we hear about it belatedly, like the Sputnik news? We saw it in the skies above and the next day we saw news pix of Russian dogs in training. Pictures that MUST have been censored, lying in files, hoping against hope that the Russians would fail before we succeeded.

The Public is learning the hard way...by shock. All is not gold that glitters. We should like to know if there are any space or U.F.O. clubs in Russia or are the Tibetans teaching them a thing or two about vimanas and dorjes?

While we take tons of sleeping pills the Canadians claim they are the first visitors to have studied and tried the amazing new natural health methods with success. Incidentally it is Dyson Carter MSc., F.R.C.G.S., M.C.L.C. and his wife Charlotte Carter R.N., P.H.N. They are qualified and recognized medical writers above suspicion from the silence boys.

#### NEWS FLASH

Since writing the article about the Canadian Investigation of Soviet Health Studies and the conjecture that Yoga was involved, we expected the ridicule group would loudly 'haw haw' such ideas. The following from the Journal American of March 17th. 1959 is worth quoting:-

#### REDS EYE YOGI FOR 'SPACEMAN'

New Delhi, India (UPI) Soviet scientists are turning to one of the East's oldest practices, Yoga, in their efforts to conquer space. (Since the above was written news has been 'released' about the Tibetan revolt).

## SPECIAL TRANSLATIONS

By **Adrienne Munkeberg**

January 7, 1959, Evening Post, Norway

A young man from Granddal near Sandnes had a strange experience on Saturday afternoon about 14.30 o'clock (2:30 p.m.) which he tells the Rogaland newspaper. While working outside to get his wood into the house he heard a peculiar sound as of a flock of birds. A bullet-like flat object, probably a flying saucer landed on a hill a short distance away. A tall well-built dark brown man stepped out. A strange color combination on his hands and face was noticeable, the brown being predominant as a background. Another distinct characteristic was his helmet to which an antenna was attached. He walked along a narrow path; advancing closer, about 100 meters away, the observing young man who had hid himself and was lying still would have run away if the mysterious stranger had come closer. But he turned around and went back to his flying saucer. The whole experience lasted about 15 minutes.

This is an overall picture of the young man's story. He is known to be a very calm and sober-minded man, and absolutely reliable. The police force has been notified, newspapermen have searched the "Sola" (airport) but no helicopter was over the Granddal area at that time.

The policeman at the station in Sandnes said in his interview with "aftenposten" that we cannot just overlook the whole case as a figment of imagination, but search for a clue. Together with military experts we will search the spot for an eventual clue or mark. He said: "The young man who has seen the phenomena is absolutely strong and healthy with a sober and sound mind. For many years he has worked in a bicycle factory in Sandnes. He first told his colleagues what he had seen. He did not notify the police, nor the newspaper for fear of being disbelieved. I believe the description he gave us of the flying saucer fully agrees with other information about flying objects seen and observed over the country. They are flat, about 7-8 meters in diameter." says the policeman.

U.F.O.-MATION SUBSCRIPTION, ONLY, \$1.00 per annum, (Four issues.)

By Adrienne Munkeberg

The German Society for Rocket Technique and Space Research held their annual meeting in Frankfurt. The well-known scientist, Dr. Heinrich Faust said in his lecture "Teachings of the Atmosphere for Future Space Travel" that we are convinced of the existence of other artificial moons and vanguards throughout space, built and operated by intelligent beings from other planets, although we have not yet been able to prove their existence. The physicist, Mr. W. Pons, agreed on this, and said we must be able to accept the probability that life on earth is not a coincidence in cosmic development. The fact that we are not yet able to visit or communicate with inhabitants of other planets does not mean that they cannot visit us. It would be wrong and foolish to assume that space people need be on a lower level of development than we are. The "showing off" even in assuming we have cosmic supremacy is always a sign of an inferiority complex.
