SUMMER ISSUE

NO 3

N.Y.S.I.B. LECTURES.

Despite the hot and humid weather in N.Y.C., on THURSDAY and FRIDAY AUG. 27, 28, 1959, 121 persons attended N.Y.S.I.B. LECTURES, at 211 WEST 57 ST., and Hotel Ansonia, Broadway & 73 ST. to hear SANTIAGO VELASQUEZ' interesting account of his experiences, which led to the publishing of " WORDS OF WISDOM."

ALL DAY FLYING SAUCER RALLY JAMBOREE.

SUNDAY, SEPTEMBER 27, 1959, UNIT #14, of "UNDERSTANDING" (DAN F

SUNDAY, SEPTEMBER 27, 1959, UNIT #14, of "UNDERSTANDING" (Dan Fry's Group) sponsored the above RALLY, at the Studio of MARLIANNA BEST, 838 PARK PLACE, BROOKLYN, N.Y. About sixty persons were present believers and skeptics sat around and listened to the Scheduled Speakers, ANDY SINATRA's "Astral Projection Stories" was ridiculed by the skeptics, but delighted the Neophytes, and accepted by the true Mystics.

REV. FRANK STRANGER, spoke briefly about U.F.O. SIGHTINGS old and new, which he has recorded in his book "SAUCERAMA"

DR. HENRY TUDOR MASON, (President of World Faiths, Inc) gave an inspiring talk on how to achieve UNDERSTANDING, and his well chosen words, spoken as "one having authority seemed to chase out all negative influences, by his positive vibrations

HANS STEFAN SAMESSEN, (Fantastic Universe) after a short talk giving the interesting angle, of an Editor's dilemma in trying to present Flying Saucer material, acted as Moderator of the Forum, and handled the question and answer period, with his usual tact, wit, and courtesy.

ELLERY LANIER's (Long John's Party Line Panalist) interpretation of Prof. Carl Jung's Book "Flying Saucers a Modern Myth" presented a balanced concept, which was refreshing.

MRS. BEST, (an excellent Hostess) presided graciously, and after the Speeches, offered a beautifully prepared Dinner (Buffet Style) to those who remained for further friendly discussions. Many N.Y.S.I.B. and N.I.C.A.P. Members were there to enjoy this happy and instructive day.

THE EDITOR SPEAKS

Governor Rockefeller is going to push legislation to enforce by law the building of "fallout shelters" in every home in New York State. This will be a neat tie-in with the Supreme Court decision that a "Health Inspector" may enter any home in the United States without a warrant.

The Spirit and Soul of 1776 is being driven out of the body of 1959.

The literature predicting a police state, here in the U.S.A., that passes over our desk to N.Y.S.I.B.'s files is rather ridiculous until one reads of such proposed legislation. Even without going into the legal implications of such residential and private property control, it is very obvious somebody is confused about atomic debris.

1. Space contactees such as George Van Tassel, Adamski, George King, et al have all predicted and warned about atomic poisoning.

As a matter of fact we would not be "bothered" by such ancient things as u.f.o.'s if we were still in the gunpowder stage!

2. The Press--New York Times, March 19, 1959:

"Senator Clinton P. Anderson, Dem. N.M. accused the Def. Dept., of 'gagging' the committee on information because it was contrary to what the A.E.C. had previously said, and would upset some of those running around saying fallout is no more dangerous than the luminescent dial on a watch."

Gov. Rockefeller of course can not be too concerned about this type of fallout. He must be thinking of wartime fallout!

Happy optimist that he and others would be world leaders are, they think that someone will win the next world war.

3. To add to the confusion this headline refutes the Senator and the political ambitions and opportunity of a Rockefeller to both save our money and our bodies.

"EXPERT BLASTS HYSTERIA ON FALLOUT PERILS" Washington, July 20, 1959 in the N.Y. Daily News.

J. H. Morse Jr., Assistant to the Chairman of the A.E.C., J.A. McCone, states that high officials (Governors?) are scaring us to death with security. As a result of secrecy on fallout information (the pot calling the kettle black?) he intimates it is not as bad as it is "imagined." He winds up his speculations with the bright idea to make smaller bombs to confine wars to limited areas!!!

N.Y.S.I.B.

MAIL BAG

Geo. Van Tassel advises he will not put Proceedings in book form as he did the 1936-39 issues. This is important we think as many will find the first 3 vols invaluable as a reference book of these years. If you want to help him change his mind write to Geo. Van Tassel, P. O. Box 458, Yucca Valley, Calif.

V.C.S.E.G.W.M. (Herb Clark) P.O. Box 650, Sta. A. Vancouver, B.C., Canada offers tape transcripts of an address by Dr. Wm. Davidson, Co-chairman of the Atomic Scientists of Chicago. Subject: The Challenge of the Nuclear Age. \$3.00 It will give you nightmares. Ed.

In the last issue we saw L. E. Lundvig was "ready to co-operate". A recent letter questions this meaning. Please understand Mr. Lundvig is an independent to us and all that was meant was that he has tapes available for our readers!

July 28, 1959 Herb Clark writes, "We are forwarding some of the issues of our bulletin sheet and hope you may find something of interest in them. We appreciate your 'liberal' attitude towards the landing and contact reports. In fellowship, Herbert D. Clark, Secretary, U.A.F.S. Club". These are excellent bulletins.

Howard Kaufman, 5302-1/2 Vantage Ave., North Hollywood, Calif. writes that he wants pictures of ghost rockets, world War II or 1959. Maybe he means foo-fighters? Anyone care to help him out?

We received a request for info about the Soviet Health Studies. This is being answered.

July 28, '59 by air (where has this been?) C.I.C.O.A.N.I. Hulvis B. Alexis C Postal 1. 675 Belo Horizonte (a hotel) Brazil writes "We shall be delighted to exchange information with you" It was addressed to a Douglas Deane.

Aug. 6, 1959. The Little Listening Post writes "We would appreciate any news about N.Y.S.I.B. -- how many members, how are the meetings, any lectures concerning sightings, etc."

(Attention officers of N.Y.S.I.B. Ye editor does not have such facts.)

SIGHTINGS.

News blackouts exist apparently regarding the subject of U.F.O.'s. Did anyone in the New York area see in print the following?

July 11 (UPI) Honolulu "Crews of five airliners startled". The Los Angeles Evening Herald Express carried on it's mast in two inch type..."PHANTOM SPACE LIGHTS SEEN BY PACIFIC PLANES". On July 16th the Oakland Tribune, Oakland, Calif. carried on it's masthead two inch type proclaiming..MYSTERY SKY LIGHTS SIGHTED.

Six sheriff's deputies, Stockton airport officials and numerous residents watched crescent shaped objects, carrying lights that blinked, hover from 1:25 a.m. to 2:30 a.m. when they disappeared. They ranged from white to orange in color. When a plane appeared they seemed to signal each other by blinking their lights. Deputy Van Sant and Max Benitez kept watch until they were joined by Deputy Robt. Jones and Clyde Skogland. We wonder if the A.F. will charge the sheriffs with being drunk?

Captain George Wilson, 43 of Seattle, Wash. a 19-year veteran who flew the DC/7C from San Francisco, was visibly shaken by his experience as was his co-pilot and flight engineer, Robt. Scott, who left his mouth open on the Honolulu trip! We will soon run out of reliable pilots who don't drink or have hallucinations. Anyway, it was probably crazy irresponsible R.C.A.F. pilots flying their atomic crescent shaped plane that mysteriously disappeared or blew up.

All this is a feather in Gabe Green's hat as he said "they" would show--and they did--and how.

Canadian Pacific Airlines saw them also as did Slick Cargo Airways.

Gabe Green's "AFSCA" (Amalgamated Flying Saucer Clubs of America, Inc.) and Geo. Van Tassel's "Proceedings" both print a most unusual picture. A Sheriff, symbol of our lack of self-control, took a picture, with his polaroid camera, of Giant Rock. He was surprised at what he saw in the print. So he took another pix, but it was not unusual. The picture we refer to is a picture of Reserve Sheriff of San Bernardino County, Calif., in full planetary regalia and badge holding his two polaroid pixs. One shows the alleged space ship and or force field. The other taken about 5 mins. later shows only a plain view.

It is unusual as most "policy" officers will not get involved in such doings! We wonder if he is retired--now? (Since writing this we heard about the 6 Stockton Sheriffs.)

FOREIGN NEWS.

From the Vancouver Clubs fine bulletins (Nov. '58 issue) we quote, "In April of 1958 the Roman Catholic Church appointed a commission of leading theologians to study the duties of the church towards creatures in outer space. This came at the heels of a closed meeting of the Pontifical Academy of Sciences in the Vatican." Page Geo. Van Tassel, Adamski and Williamson! Our Lady of Fatima has been raising heaven? Is she a space lady? Ric Williamson intimated the Italians and Romans were jolted by space phenomena all thru 1958.

The author of the book *La Pluralite des Mondes* (1688) is more up to date and open minded than most of the so-called scientific ufo clubs that readily believe in the "night side" contactees who because they are frightened, negative and reluctant to tell of their contacts with green gnomes or hard shelled dwarfs with silica skins are supposed to be more reliable than the optimist "day side" contactees. To us it is all the Madison Ave. touch! The hard and the soft sell. If you think hard enough and have a classical education you will realize just what this hokey pokey is all about!

WE SEE BY THE PRESS

ST LOUIS MARCH 18-50 (U.P.O.I.)

School children in metropolitan St. Louis are participating in a drive to collect 50,000 baby teeth a year to measure the amount of strontium 90 absorbed by growing children.

COMMENT

We were all assured years ago that there was no danger from fallout...but now with increased dirty fallout plus secret outer space explosions we get it in snow, drinking water, plant feed, animal food. Each step is accumulative.

With the news release of outer space explosions the U.S. claimed "top Secret", but many people reported strange explosions (air force denials) echoes and flashes in the sky. Officially no reports of phenomena were turned in. Rumors flew around however of outer space battles!

In view of all this and the "stories" the contactees tell about spacemen cleaning up our "deadly Debris" one would think they would go away in disgust.

The U F O IN LITERATURE

The U.F.O. search is bogged down! The sightings remain the same, aloof and elusive. However law enforcement officers seem to be more involved lately as witnesses. Is this a plan? The government keeps the lid on its box of magic and the Pentagon claims all is "hallucination". This is why sheriffs are being rounded up by space craft?

The original pattern as discovered by Keyhoe and other respectable civilian investigators has not changed and most U.F.O. clubs are duplicating. Nothing new has come out of their research, only two cold conclusions

1. There is 'something' in the sky besides the junk and debris we throw up for celestial garbage.
2. The majority of U.F.O. fans (90%) are nutz and have fallen into the religious revelation class.

N.Y.S.I.B. files show that most U.F.O. clubs depend on each other for news. Anything new comes out of contactee stories. It would be quite dull without them!

Recently the N.Y. Daily News featured four articles that fairly well summed up the average persons ideas about space ships and their reality.

Most occult literature refers to space ships or something akin to the "flying angels" or foo-fighters. Long before the ufo's made news one occult writer told of a space ship buried beneath the Great Pyramid of Giza. (What a chance for Nasser!)

We often wonder how many of the contactees have read some or all of this material. We find space ships in Theosophy, Hinduism and all primitive religions and cultures, so it is not hard to find belief in space travel, communion between planets, etc. Along with this we find a belief in man as

1. A material substance (molecular)
2. A ghost or astral substance (electric)
3. A spirit or mind alone (mind or atomic)

However these patterns repeat at all levels as does the search for the building block of matter. On earth man could exist as all three in one or one at a time, but on a hot star only as number 2 and 3. In uncondensed space he could exist as only number 3 or as a god-like being. The ability to leave his physical body is the basis for all this belief.

Is the U.S. Government interested in such nonsense? Yes! We advise you to read Dr. Andy Puharuch's book, "The Sacred Mushroom" and learn for yourself. If every ufo fan does, then the search will be on again and the contactees will come into their own, instead of being superciliously classified as sick men and women!

Continued on Page 9.

SAUCER SCIENCE

By John Hay

If one wishes to take an objective view of the subject of flying saucers, U.F.O.'s, space craft or celestial visitors (take your choice of designation) one cannot ignore the impact and reaction on the public mind. In other words, the visual and mechanically recorded sightings along with testimony which may be true or false, have been fairly well evaluated by research groups the world over and it is not enough. It leads nowhere. The official position of the Government Agencies is still the same. There are objects, material or immaterial in the skies that are unidentified. Most U.F.O. clubs who keep clear of the subjective material have come up with no better answers than those given by the government! And why should they? It all reminds one of a fly on a windowpane who keeps buzzing around one spot and hasn't sense enough to crawl up and over the open top!

The official stand by policy making groups is, that due to the fact that our present day science cannot find intelligence outside of our planet it therefore does not exist officially! This was well pointed up on the Alcoa C.E.S. U.F.O. show of January 22, 1958 when Dr. Menzel stated we would eventually go out into space but nobody would ever come in!

It is debatable whether this is a logical conclusion or just a religious hangover as both Christian and Jews, (the bulk of our western culture) are bedeviled by this same question as a religious issue.

Elsewhere you will read of the Roman Catholic action as a result of outer space activity. Needless to say the subjective side of man has always been recognized by the Mother Church but its relation to the space age is an unformulated dogma as yet apparently, except so far as Mary was translated bodily to heaven. Geo. Van Tassel would say by a transistor beam to a space ship and away!

It would seem then that the battle for recognition in the public mind is between pure materialism, no hanky panky, and the subjective method.

Materialism being a science and subjectivism being an art, it is obvious where the battle would end in the public mind. Except for one strange undeniable fact. The U.F.O.'s have not aligned themselves publicly with either faction! They still keep coming and a goin'. Like Jacob's dream, the angels ascend and descend. This we hasten to say does not mean that there are not some people who "claim" to have authority from space brothers.

SAUCER SCIENCE

By materialistic standards most of the contactee's have not proved their claims--but and this is the point of this article, the outcome of all this is an intensified activity and interest by everyone in subjective matters. The revelation to be is that there is a science to subjectivism. We can see this in attempts to rationalize E.S.P. and a renewed interest in research by such projects as carried on by Dr. Puharich. When such projects become respectable, people will take an intelligent interest in occultism which will no longer be occult but a revelation!

As we are in a predicting mood let us state that one day people will watch a man disappear on their TV sets and it will not be a trick with cameras! Few people will believe it but many will accept the explanation. Light can be magnetised, is magnetic and can be bent. This explains Dr. Gonder's Curved Light Theory and is the reason why astronomy goofs so much!

Since writing the above, we learn Long John Nebel of W.O.R. Party Line fame has seen this phenomena. Some trick, eh John!

Let us recall the fact that Geo. Van Tassel claimed at a N.Y.S.I.B. lecture that he held a spaceman's hand and the space man disappeared, yet he could feel him!

Andy Sinatra also claims a man was transparent in his barber chair!

Draw up a chair, Long John!!

N.B. See October Fate Magazine for Long John's confession!

U. F. O. IN LITERATURE (Cont.)

We are not being facetious when we say Mr. Sick is a "well man"!

The Japanese authorities say Mr. Hwang Hyun Sick is sane in spite of the fact that he claims he boarded an egg shaped, silver coloured craft by invitation (like George Van Tassel) from three men and three women dressed in blue business suits, like Americans. They were blond (sandy) and blue-eyed but had Chinese features! The men were tall, about 6 ft. Mr. Sick talked to a gal in Japanese. We can hear loud guffaws about Mr. Sick's sick libido and his wishful thinking. We could agree except for a strange coincidence--Marco Polo writes of such creatures met during his journeys to far Cathay and Tartary!

Mr. Sick's story is in the Vancouver F.S. Club's bulletin we quote it to show how Marco Polo's story makes Mr. Sick's story more acceptable. Herb Clark please note.

SPECIAL TRANSLATIONS

By Adrienne Munkeberg

From the Danish UFO News, August 1959:

Dr. Alberto Perego of Rome, Italy makes the following statement as reported in the Danish UFO News:

"Thousands of UFOs from Mars and Venus are continually circling the Earth to prevent an atomic war. All the governments of the world knew that at least 50,000 UFOs have been observed and that over 4000 landings have taken place.

"The reason for its secrecy is a non-interference in the political affairs of the world for fear of panic.

"The UFOs' mission is to prevent any single nation from becoming too powerful."

Dr. Perego also states that there is ample proof that six American planes were forced to land on a space platform and the 22 pilots were later sent back to earth to relate to authorities all that had taken place.

SIGHTINGS (Cont.)

The pix the officer took has been enlarged and is printed in both journals. This occurred on May 24, 1959.

The best picture of Sheriff Ackerman of 29 Palms, Calif. is the picture in the AFSCA souvenir brochure. However, George Van Tassel's Proceedings explain in detail the circumstances and seem to also hit the nail on the head with respect to our economy. Leading editorials have recently supported his views.

A prophecy made on the Jack Parr show Aug. 25 '59 is that the U.S. will devalue the dollar. Nuff said George!?

The Vancouver Council of Social Engineering (P.O.Box 650, Sta. A, Vancouver B.C., Canada) reports that Reinhold Schmidt's story of seeing Russian underwater installations for missile warfare (while on his recent trip to the pole in a Saturnian space craft) has been verified recently by Robert S. Allen's report that the U.S. and Canadian Navies have discovered radioactive datum plates for markers at 1,000 ft. under, so that subs can accurately fire I.C.B.M.'s.

So that is why Russian Trawlers snagged the trans-Atlantic cables?

Another contactee seems to have rung an "alarm" bell!

THE EDITOR SPEAKS, (Cont.)

Just a little bit dead, eh? (See or hear Dr. Wm. Davidson's lecture as advertised elsewhere here.) None of the above makes sense, yet we are captive to it all because of security or politics or just plain evil.

No wonder nations have a suicidal tendency. No wonder individuals lose all sense of direction and become ripe for the robot age! The only important people left are the politicians and force boys. No wonder such stories as we printed in the last issue of UFO-mation about a "New Berlin" under invading Venusian Banners get a response, for it was just such an atmosphere that bred Hitlerism to fill a vacuum.

We hear serious U.F.O. researchers saying the contactees are not to be believed. All we can say is that at least they are consistent on one point -- fallout!

4. Compare the point 3 (July 20th A.E.C. release) with the August 27th '59 Herald Tribune (AP) headline

"MORE DATA ON FALLOUT DEMANDED. IT'S MORE RAPID THAN EXPECTED" More rapid than the "experts" expected but way back when the U.F.O.'s were supposed to be releasing green balls to clean the atmosphere. Without reprinting the article let us quote parts. "The threat from atomic radiation fallout as a whole has not received high level administrative support and impetus which it needs and merits." This is from a May 5-8 report by the Senate Atomic Energy Committee (do not confuse with the A.E. Commission). We imagine by support the senators mean investigation? Well, Well, says George Van Tassel!

The good senators wound up in a tizzy, ruffled at not getting answers to radiation danger questions.

"The Committee called for less secrecy...." Shall we say, "We told you so!"?

The people who vomited en masse in Wyoming, Indiana and Ohio (A.P. Aug. 23 '59) may not be suffering from "food poisoning" but from radiation--the symptoms include vomiting, nausea and fever! Anyway officials running these typical American picnics deny being careless with the food except one group that left ham sandwiches in a truck in 93 degree temperature.

The doctors were puzzled in most cases. Are you?

N.Y.S.I.B., MEMBERSHIP, \$4.00 per annum, payable
