

WEEKLY R.M.'S

LOOK-SEE

VOLUME 4

NUMBER 3

The Weekly Research Magazine's Look-See is printed by the UFO Information Exchange Alliance, 2875 Sequoyah Drive, Atlanta 5, Georgia.

CORAP - ROAP DIRECTORS MAKE JOINT STATEMENT: Despite statements to the contrary in the latest issue of FLYING SAUCERS MAGAZINE, Alan Katz is neither director of CORAP or ROAP. The director of CORAP is Tom Roark while the director of ROAP is Allen Greenfield.

X-15 PHOTOS UFOS: A new chapter has been added to the UFO mystery. During a recent rocket-powered, record breaking flight of the X-15 experimental plane, five or six unidentified flying objects showed up on film taken during the flight. The pilot, Joe Walker, said that he had seen no objects, but the film showed them to be, in Walker's words, "disc-shaped or perhaps cylindrical." He did not care to speculate as to what the objects could have been. It is Look-See's hope that these photos will not be confiscated by the Air Force. Walker is the third 'spaceman' to report mystery objects in the upper atmosphere, the first two having been Glenn and Titov with 'their' "firefly" particles.

HAWK RESEARCH SOCIETY REPORTS ON TODD CONTACT: Mr. Robert Todd, who claims to have contacted 'spacepeople' is now considered to have faked the incident, H.R.S. president, Harry Siebert reports. Reported 'fctprints' of these 'spacepeople' are now under investigation by H.R.S.

IBFS REPORTS: TAILLESS 'AIRPLANE' SIGHTED OVER OTTUMWA: On April 25, 1962, Mrs. Meryl Johnson sighted a strange object in the skies of Ottumwa, Iowa, as she drove her car. The object, described as a tailless 'airplane' with swept-back wings, came at her from the Northeast going Southwest. The incident occurred at about 4:00 P.M.
