VOLUME 5NUMBER 3UGANDA UFO CALLED METEOR

Kampala, Uganda - August 9, 1962 - (LS) - A large unidentified flying object, sighted over Kampala late at night on Tuesday, August 7th, is now believed by meteorological and geological officials to have been a gigantic meteorite. One observer, American Consul-General Hendrik Van Oss described the UFO as being a "large object giving off a greenish-blue light." He further stated that it "appeared" to "break up" as it traversed the sky. Further details at the time of this writing were unavailable. (SOURCE: San Diego Union, Thursday, August 9, 1962).

MOSLEY APPEARS ON NATIONAL TELEVISION

New York City- August 21, 1962- (LS) - Angel hair, UFO reality, and the Theodore Goff case all were mentioned as James Mosley, Editor of SAUCER NEWS appeared on NBC's daytime quiz program, "Play Your Hunch." The contestants were asked to guess which person out of three (X-Y and Z) was giving a true explanation of the term "angel hair." Mosley (who was Z) was guessed immediately. Afterwards, Mosley gave a short explanation of the angel hair in relation to UFOs, and was then queried by M.C. Richard Hayes whether he believed UFOs to be real or not. Mosley commented that he certainly didn't believe all the stories he had heard, but he said he believed some stories true. Mr. Hayes agreed, saying he also believed in 'saucers', and commented that the idea that Earth had an exclusive on life was absurd. The session ended with a round of applause from the studio audience. (SOURCE: Allen Greenfield, ROAP).

WORLD FAIR CITY HAS TWO DAY FLAP

Sightings were made, barometers were affected, as Seattle, Washington experienced a two-day flap. The following condensation of the main events of the flap comes from the Washington State NICAP Subcommittee:

Seattle Washington - 31 July, 1962 - reports to subcommittee

- 11:28 PM Pin Point sized green light with streak behind it directly overhead, W-E.
- 11:30 PM White streak, in sight approx. 1 second, E-W.
- 11:34 PM White light, fast, in sight 2 seconds, S-N.
- 11:43 PM White light, fast, W to SE. In view 2-3 minutes. "Like Echo" but Echo had passed out of sight to the SE at approx. 11:29 PM.
- 11:57 PM White light, SE to NW. Fast. In view 2 seconds.

Seattle Washington - 1 August 1962 - reports to subcommittee

- 12:07 AM White streak, E-W. In sight one or two seconds.
- 12:18 AM White light, fast, seen in upper 1/3 of sky. In view 2 seconds.
- 12:20 AM White light, streaking S to N across sky. In view 2-3 seconds.
- 12:30 AM White light, shooting NE to SW. In view about 4 seconds.
- 12:47 AM White light, moving fast, S to N. In sight 2-3 seconds.
- 12:49 AM Blinking white light (about twice the speed of Echo) passed directly overhead headed W to E. In sight 3 to 4 minutes.
- 12:58 AM Sky flash. NE to SW.
- 1:00 AM White streak with light ahead of it, size of pea held at arm's length, headed W to E. (Echo headed W to E at 1:31 AM, and was on its descent in the SE as this object was sighted.)
- 3:00 AM (or shortly after) "Moving star" moving slowly, seen in SW sky. Suddenly stopped, moved straight down, then straight up again, then back to NE. In view about 10 minutes from South end of Seattle.

There it is - from late Tuesday night (July 31) to early Wednesday morning. During a period of less than 4 hours, 14 sightings (including several good ones) were made and reported. (SOURCE: NICAP Washington State Subcommittee).

NEWS NOTES

Look-See wishes to extend hearty congratulations to Ed Babcock Jr. and crew on the occasion of the 1st anniversary of the formation of the New Jersey Association of Aerial Phenomena (NJAAP). Best of luck, Ed!
