VOLUME 5NUMBER 4MYSTERIOUS METAL OBJECT FALLS FROM SKY

Charleston, South Carolina- Thursday, August 30, 1962- LS- An Explosive Ordnance Disposal Unit sent three divers into Twin Lake near Concord, North Carolina before dawn Wednesday (August 29) to search for a mysterious "long metal object" which was seen to fall into the lake on the 28th. The Divers failed to find the object, but did come up with some 'foil' some four to five inches in diameter. They could not identify the matter; however, they took it back to Charleston, South Carolina with them for identification. (SOURCE: The Augusta Chronical- August 30, 1962- Augusta, Georgia).

ADVERTISING PLANE ? OBJECT OVER ATLANTA

Atlanta, Georgia- August 28, 1962- (LS) - About 20 persons including a former Naval Aviationist, sighted an unidentified flying object at approximately 9:15 P.M. on the 28th of August, as it flew over Atlanta's Oglethorpe Apartments, one witness describing it as fitting the description of a "flying saucer." The object, described as a luminous disc, was first thought by an Airways Operations Specialist to be a DC-8 jet taking off, but this theory was abandoned when the plane in question was established as flying in the opposite direction of the UFO. A later explanation that the object may have been an advertising plane with a light apparatus that could conceivably resemble the object described is under investigation. (SOURCE: ROAP- Atlanta, Georgia, with special thanks to Harlen Parks of WQXI Radio for alerting us of this report).

UFOS SEEN IN THREE STATE AREA SPUTNIK?

Milwaukee, Wisconsin- September 6, 1962- LS- A number of reports of unidentified flying objects seen over Nebraska, Minnesota, and Wisconsin before dawn today (September 5th) were called by scientists the crashing Soviet earth satellite, Sputnik IV. The Russian object, which did crash at approximately the same time as the UFO reports was described by Milwaukee Astronomical Society Director Edward A. Hallbach as "spectacular, a once-in-a-lifetime sight." Look-See withholds comment by reason of the fact that we lack such essential information as: The times of the UFO reports (Sputnik was seen to break up upon re-entering the Earth's atmosphere at shortly before 5:00 A.M. EST); description of the UFO(s) compared to descriptions of the dying Soviet space vehicle; etc. (SOURCE: The Atlanta Constitution - September 6, 1962).

NEWS BRIEFS

Tulare, California- Advance Register- 19 July 1962 - TULAREAN SEES STRANGE LIGHT- An early rising Tularean saw a strange light in the sky about 4 AM this morning. "It was one huge light. A yellow glow." That's the way Arnold Correia, 20101 Road 44 described it. He said the object was Southwest of town and heading North when it made a straight "T" turn and headed West. He said it disappeared in about four minutes. For a time it looked "Like it was standing still", he said. He said it left a reddish flame in its wake. (SOURCE: Washington State NICAP Subcommittee).

NEWS BRIEFS - continued

IMPORTANT- THIS IS URGENT: The National Investigations Committee on Aerial Phenomena, long recognized by UFOlogists as the best UFO Organization in the 'publicity' field needs YOUR support to succeed in its mission. Their work is vital to ALL UFOlogists, for it is NICAP that keeps our congress (in the USA) and governmental bodies throughout the world informed on the UFO enigma. A special report, named THE UFO EVIDENCE is ready for publication at NICAP. IT ABSOLUTELY PROVES EVEN TO THE SCEPTIC THAT UFOS ARE REAL! The publishing of this report and the support of NICAP are vital. Send a contribution NOW for any amount, small or large, to: NICAP, 1536 Conn. Avenue, Washington 6, D.C.

UFO Color Photo in Antartica: An unidentified "very strange" object was seen over Cape Hallet, Antartica, at 11:10 PM on the evening of 9 July. Harold T. Fulton, President of Civilian Saucer Investigation, New Zealand (now in recess) forwarded several news clips as well as the text of a radio broadcast containing this information: Mr. C.B. Taylor, scientific leader at Hallet Station, reported by radio telephone on the 10th. The object had 3 yellowish-white lights, the center light being midway between the other 2 and much brighter than the others. It travelled Southwest to Northeast, with its highest point in the Northwest about 35 degrees from the zenith. When the object was in the Northern sky, it emitted a brilliant flash of white light. As it neared the horizon, the smaller lights disappeared in the auroral glow. "It took about 3 or 4 minutes to cross the sky." Taylor said "We have no idea what it could have been." Seven of the station's eighteen men saw the object, which was also photographed by the all-sky auroral camera, in color. (SOURCE: APRO Bulletin, 4145 E. Desert Place, Tucson, Arizona).
