THREE STEPS TO A SOLUTION TO THE UFO MYSTERY

- 1) UFO Groups must pool their resources and sponsor a series of public forums on the UFO issue and the censorship problem.
- 2) UFO Groups must unite in the assembling of a full documentary report of the entire UFO situation; a report which would be distributed to Educators, Scientists, and Politicians.
- 3) UFO Groups should and must issue a joint proclamation to the United States Congress, requesting the creation of a Government sponsored civilian UFO Investigative Organization, relieving the United States Air Force of its responsibility to investigate the UFO issue. AF files would be turned over to this committee, which would include Scientists and leading UFO researchers.

I sincerely hope that you will endeavor to bring this program into reality.

Respectfully,

Allen Greenfield,
Director of ROAP
