

LONE WATCHER SIGHTS UFO OVER ARKANSAS

Plumerville, Arkansas - January 16, 1963 - (LS) - At approximately 3:55 P.M. C.S.T. on Monday, January 14th, Mr. Lucius Farish observed two unknown aerial objects over Plumerville, Arkansas. Mr. Farish estimated their altitude to be at approximately 6,000 to 8,000 feet. First observed at about 75°, the objects moved in a southerly direction, almost due South. Mr. Farish sent a detailed report to ROAP headquarters, which showed that the so-called "natural" explanations such as conventional aircraft, etc., did not fit in this case. (SOURCE: A letter sent to ROAP by Mr. Lucius Farish).

"UFOS INTERPLANETARY" CONCLUDES GROUP

January 23, 1963- Woburn, Mass. - (LS) - "It is the majority opinion of the officers and members of the Massachusetts & Rhode Island Two-State UFO Study Group for Adults that unidentified flying objects...are in reality intelligently controlled machines from outer space, conducting a scientific study of our planet for purposes as yet unknown." This, in part, is the press release of January 23rd. This UFO Study Group (UUA member) is, of course, not the first to draw this conclusion; however, it is of significance that this conclusion is the result of a probe started by the group in 1959. (SOURCE: Press release, George Fawcett).

CORRECTION: Gene Duplantier, announces that his new address will be 17 Shetland Street, Willowdale, Ontario, Canada, not 23 Shetland Street, as we previously announced.

TWO NEW MEMBERS IN UUA

The Alliance division of the UUA proudly announces the inception of two new member-groups: Advanced Structures, Jack Bartlett, 203 E. Renette Street, El Cajon, California, and the Colorado Aerial Phenomena Group, Thomas K. Petty, 532 Crestmore Place, Fort Collins, Colorado. Look-See welcomes these groups to the UUA on behalf of both NARL and Alliance divisions.

SPECIAL ANNOUNCEMENTS

After a poll in the newspaper committee, it has been decided that the UUA will publish a monthly publication, as an added service to our members, under the name of "THE UFO INFORMER", beginning in the near future. The name of the new publication was suggested by Alan Katz. Look for details in the next issue of Look-See.

A group of leading UFologists held a rousingly successful second UFOlogy telephone conference at 9:30 P.M. on January 26th. The subject of the conference was the planning of the future strategy in the ranks of the UUA. It was decided that the public apathy is our greatest opponent, and plans were made to eliminate this menace via public education. Another conference is planned for early March. Look-See's Editor feels that this conference should go down in UFOlogical history as a landmark.

Send those reports, news items, and editorials to Look-See, c/q ROAP, 2875 Sequoyah Drive, Atlanta 5, Georgia.
