THE NEW SIGAP BULLETIN . NUMBER 1 JULY 1977

Welcome to this, the first in a new series of bulletins to be produced and published by the Surrey Investigation Group on Aerial Phenomena.

As you may know, the last publication to be produced by the group was the 'Esher May Fair' edition of 'Pegasus', a journal which has been associated with the group since 1969.

In recent months, there has been a great deal of renewed interest in the subject of UFOs, and consequently we have decided that demand is sufficient for the group to become more active.

Apart from the constant trickle of local reports, we have been heavily involved in a number of other investigations, principally, the sighting of UFOs from a British Airways Trident by the pilot, his crew, and many of the passengers. This report came to our attention a year ago, and it was only fairly recently that the pilot, in an effort to establish an explanation, brought the case to public notice.

Despite the widely reported explanation that the objects seen by the pilots over Portugal were balloons, there are still a number of anomalies which we are still investigating.

MEMBERSHIP

We have enclosed a draft leaflet which explains the aims of the group. It is designed to inform people who enquire about the organisation and it is hoped will encourage them to apply for membership. You have been invited to join SIGAP and an early reply to the above address would be appreciated. Please understand that the annual fee of £3 is designed to cover administrative costs, postage and investigation expenses.

NEXT MEETING

This will be held on Tuesday 19 July at the Wooden Bridge Hotel on the Bypass at Guildford at 9.15pm in the saloon bar. This will be an informal meeting and will follow one of our regular broadcasts on the hospital radio service, Radio Lion. The new season of meetings will recommence on Tuesday 6 September. A programme is being prepared and details will be circulated to members as soon as possible.

BULLETIN FORMAT

In common with other literature, the format of this interim bulletin is temporary. Photocopies of some existing investigations have been attached for your information.
