According to the announced nuclear powerplant in this city. Castro Nadero said that if he is decided to install a nuclear energy driven powerplant in the area, "we will have a economic and nonpolluting source of energy." He explained: "But that depends on plans of the energy secretariat."

He also spoke of the future of a heavy water plant in Arroyito, Neuquen Province, regarding which he said that "the plans remain firm" but there are problems of international safeguards, which is why that technology is being held back. So Argentina has taken the lead of installing a pilot plant at Atucha." He concluded by saying: "When Argentina is in a position to define its industrial plan and has the technology, I believe it will be installed in Arroyito."

Castro Nadero concluded by referring to Atucha II, Embalse Rio Tercero and other plans which are being drawn up, regarding which he said that he is "waiting for the final report from the energy secretariat, which has finished the first part." He asserted: "That is, decisions have been made on the electrification network up to the year 1955 and the second stage, from that year until 2000, is being planned."

The Bolivian president also publicly stated his support for the official candidate, Gen Juan Pereda Lopez.

REPORTS CONFLICT ON DETAILS OF FALLEN OBJECT

FY161931Y Sucre Radio La Plata in Spanish 1650 GMT 16 May 78 FY

[Summary] We have received another phone call from our audience requesting confirmation of reports that an unidentified object fell in Bolivian territory near the Argentine border. We can only say that Argentine and Uruguayan radio stations are reporting on this even more frequently, saying that Bolivian authorities have urgently requested assistance from the U.S. National Aeronautics and Space Administration in order to determine the nature of what which crashed on a hill in Bolivian territory. Just a few minutes ago Radio El Espectador of Montevideo announced that there was uncertainty as to the truth of these reports.

Argentine sources indicated that the border with Bolivia had been closed but that it might soon be reopened. They also reported that an unidentified object had fallen on Bolivian soil near the Argentine border and that local Bolivian authorities had requested aid from the central government which, in turn, had sought assistance from the U.S. National Aeronautics and Space Administration to investigate the case.

A La Paz newspaper said today that there is great interest in learning about the nature of the fallen object, adding that local authorities for security reasons had cordoned off 200 m around the spot where the object fell. The object is said to be a mechanical device with a diameter of almost 14 meters) which has already been brought to Tarija. There is interest in determining the accuracy of these reports which have spread quickly throughout the continent, particularly in Bolivia and its neighboring countries. Is it a satellite, a rocket or a false alarm?

ELECTORAL COURT WILL NOT SUBMIT TO ISB PRESSURES

FY161571Y La Paz PASSENCIA in Spanish 10 May 78 p 11 FY

[Text] Responding to a declaration issued by the national assembly of the Bolivian Socialist Frontage (FSE) recently held in Cochabamba, members of the National Electoral Court have stated that "they have always been willing to resign their posts."

They warned, however, that they will definitely not submit to "pressure from political parties" and they added that "they know the path of duty and will always follow their duties to the people of Bolivia and that they are determined to fulfill them."
